

# Patient-reported outcomes showed Gel Cream improved acne treatment tolerability and quality of life

After 4 weeks of using Neutrogena® Hydro Boost Gel Cream, patients using prescription or over-the counter acne treatments reported:

- 100% Agree their skin feels hydrated
- 100% Agree the product is easily incorporated into their daily acne routine
- 81% Agree the product improves their ability to tolerate their acne treatments

**Proportion of patients with acne whose Acne Quality of Life Index increased after using the gel-matrix moisturizer once daily for 4 weeks, compared with baseline.  $p < 0.001$  for all vs baseline.**
