Bringing loved ones closer together

About us

Summerset is one of New Zealand's leading retirement village operators. We offer independent living villas and townhouses through to rest home and hospital-level care across our villages. We aim to bring the best of life to our residents by ensuring they're at the heart of everything we do.

Whether you're thinking about the independence retirement village living can offer, or if you know someone who may need a little help with day-to-day living, we'd love to meet you.

Visit our website www.summerset.co.nz to learn about the life at our villages.

The accommodation

Our apartment is an open plan room with a double bed, including bed linen and towels in the en-suite bathroom - a stretcher bed is also available on request. The space is very comfortable with a couch, coffee table, TV, dining table and chairs. The kitchenette has a microwave, small fridge and coffee/tea facilities.

To secure your booking, please call or email village reception - payment can be made on arrival. Check in is from 2pm, with departure no later than 11am. Checking in late is no problem as we have a Duty Manager available onsite 24/7. Just press the intercom at the gates if they're closed and follow the instructions.
