About Myanmar Metals Limited

The Bawdwin project forms the means by which MYL intends to become a leading regional base metals producer. MYL is well positioned to realise this goal, enabled by: the Tier 1 Bawdwin project resources, world class exploration potential, a strategically advantageous project location, a management team with experience and depth, highly capable local partners and a strong balance sheet with supportive institutional shareholders.

The Bawdwin Concession is held under a Production Sharing Agreement (PSA) between Win Myint Mo Industries Co. Ltd. (WMM) and Mining Enterprise No. 1, a Myanmar Government business entity within the Ministry of Natural Resources and Environmental Conservation. It contains a Tier 1 polymetallic deposit with a JORC compliant Indicated and Inferred Mineral Resource of 94.2 Mt at 4.2% Pb, 107g/t Ag, 2.1% Zn and 0.2% Cu (0.5% Pb cut-off above 750m RL, 2% Pb below 750m RL) including an Indicated Mineral Resource of 37.2 Mt at 4.3% Pb, 114g/t Ag, 2.4% Zn and 0.2% Cu (0.5% Pb cut-off above 750m RL, 2% Pb below 750m RL) (refer to ASX announcement dated 13 February 2019). Myanmar Metals Limited confirms that it is not aware of any new information or data that materially affects the Mineral Resource information included in the market announcement dated 13 February 2019 and, in the case of estimates of Mineral Resources, that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed.

Myanmar Metals Limited (ASX: MYL) holds a majority 51% participating interest in the Bawdwin Project in joint venture with its project partners, WMM and EAP.
