

Schedule 4 - Continuous Disclosure Policy

1. Purpose and scope

The Company is a listed company and must meet the requirements of ASX Listing Rules regarding Continuous Disclosure to keep the market informed of material events as they occur. This document describes the policy for Directors and Executive Management who become aware of material information which may require disclosure under ASX Listing Rules.

Compliance with this policy does not obviate the need for the Company to comply with 'Annual Report Disclosure'.

2. Responsibilities

2.1 Executive Management

- (a) Understand the continuous disclosure regulations; and
- (b) Report potentially material information immediately to the Chair/Senior Management.

2.2 Company Secretary

- (a) Liaise with the Chair/Senior Management on information supplied to determine if it needs to be disclosed under continuous disclosure regulations; and
 - (b) Report the material information to the market.
-

3. Policy

- (a) Executive Management will make themselves aware of the continuous disclosure regulations in the ASX Listing Rules.
- (b) In the event that any member of management becomes aware of any fact or circumstance which may give rise to a requirement to disclose such information under the ASX Listing Rules, they will immediately inform either the Company Secretary, Senior Management or the Chair.
- (c) Prior to disclosure, the Company Secretary, in conjunction with the Senior Management and/or the Chair, will review the information to enable a judgement as to the appropriate disclosure to be made.
- (d) If there is uncertainty over the requirement to comply with the continual disclosure requirements then the Company will seek external legal advice.
- (e) The Company, through the Company Secretary, will notify the market of any information it is determined is required to be disclosed.

- (f) In accordance with ASX Listing Rules, the Company will immediately notify the market of information:
 - (i) concerning the Company that a reasonable person would expect to have a material effect on the price or value of the Company's securities; and
 - (ii) that would, or would be likely to, influence persons who commonly invest in securities in deciding whether to acquire or dispose of the Company's securities.

The only exception to this is where the ASX Listing Rules do not require such information to be disclosed.

3.2 Internal notification and decision-making concerning the disclosure obligation

The Board has designated the Company Secretary as the person responsible for overseeing and coordinating disclosure of information to the market as well as communicating with the relevant authorities. The CEO/MD and Company Secretary will be responsible for ensuring that Company announcements are made in a timely manner, and will establish a vetting procedure to ensure that the announcements are factual and do not omit any material information.

The CEO/MD and Company Secretary will also ensure that Company announcements are expressed in a clear and objective manner that allows investors to assess the impact of the information when making investment decisions.

To assist the CEO/MD and Company Secretary to fulfil the Company's disclosure requirements, executive staff are responsible for immediately communicating to the CEO/MD and Company Secretary any possible continuous disclosure matter concerning the operations of the Company. Executive staff are responsible for ensuring that the information is provided to the CEO/MD and Company Secretary as soon as they become aware of it and that it is factual and does not omit any material information. Executive staff will promptly respond to requests from the CEO/MD and Company Secretary for further information concerning the possible continuous disclosure matter.

The Company Secretary, after consultation with the Chair and Senior Management, determines whether information should be disclosed to the market.

3.3 Promoting and monitoring compliance

The Board promotes and monitors compliance with the Company's continuous disclosure obligations and ensures that all employees are aware of this policy. In addition, the Board is responsible for ensuring that all staff are aware of the type of information that needs to be communicated and their obligation to communicate to the CEO/MD and Company Secretary any possible continuous disclosure matter.

A meeting of the Board may be convened from time to time to consider particular continuous disclosure issues.

On a daily basis, the Company Secretary is charged with monitoring compliance with this policy. As part of that monitoring, all major announcements to the market will be reviewed for compliance with this policy. All public announcements will also be audited for compliance.

3.4 Measures for seeking to avoid the emergence of a false market in the Company's securities

The Company recognises that a false market in the Company's securities may result if the Company provides incomplete information to the market or if the Company fails to respond to market and media speculation that may, or may be likely to, have an impact on the price of the Company's securities.

While the Company does not, in general, respond to market speculation or rumours unless required to do so by law or other relevant bodies, the Company is committed to disclosing as much information as possible, without harming the Company, to a wide audience of investors through media releases of important milestones, including information that may not strictly be required under continuous disclosure requirements. Information given to the market will also be provided to investors through media releases.

Where appropriate, the Company will request a trading halt to prevent trading in the Company's securities by an inefficient and uninformed market until the Company can make an announcement to the market.

3.5 Safeguarding confidentiality of corporate information to avoid premature disclosure

All employees are advised of the confidentiality of Company information. In addition, the Company imposes communication blackout periods for financial information between the end of financial reporting periods and the announcement of results to the market.

3.6 Media contact and comment

The Board has designated the Chair (where appropriate) to speak to the press on matters associated with the Company. In speaking to the press, the Chair will not comment on price sensitive information that has not already been disclosed to the market, however, they may clarify previously released information. To assist in safeguarding against the inadvertent disclosure of price sensitive information, the Chair will be informed of what the Company has previously disclosed to the market on any issue prior to briefing anyone outside the Company.

Subject to the policies of the Board and any committee that the Board may appoint from time to time, the Chair is authorised to comment on:

- (a) annual and half yearly results at the time of the release of the annual or half yearly report;
- (b) resolutions to be put to General Meetings of the Company;
- (c) changes in Directors, any matter related to the composition of the Board or Board processes;
- (d) any speculation concerning Board meetings or the outcomes of Board meetings; and
- (e) other matters specifically related to shareholders.

Subject to the policies of the Board and any committee that the Board may appoint from time to time, the Managing Director/CEO is authorised to comment on:

- (a) the Company's future outlook;

- (b) any operational matter;
- (c) media queries concerning operational issues which reflect either positively or negatively on the Company;
- (d) proposed or actual legal actions; and
- (e) queries and general discussion concerning the Company's industry.

There will be times when Directors and employees will be approached by the media for public comment. On such occasions, the Director(s) or employee(s) should comply with the following:

- (a) refer the person to the Chair of the Board as appropriate for comment;
- (b) refrain from disclosing any information, documents or other forms of data to the person without the prior consent of the Chair of the Board; and
- (c) report the person who contacted the Director/employee, the reason (explicit or inferred) for the contact and a summary of any other relevant information as soon as possible to the Chair.

3.7 External communications including analyst briefings and responses to shareholder questions

The Company discloses its financial and operational results to the market each year/half year/quarter as well as informing the market of other events throughout the year as they occur. Quarterly financial reports, media releases and AGM speeches are all lodged with the relevant authority. As all financial information is disclosed, the Company will only comment on factual errors in information and underlying assumptions when commenting on market analysts' financial projections, rather than commenting on the projections themselves.

In addition to the above disclosures, the Company does conduct briefings and discussions with analysts and institutional investors. However, price sensitive information will not be discussed unless that particular information has been formally disclosed to the market via an announcement. Slides and presentations used in briefings will also be released immediately prior to the briefing to the market.

After the conclusion of each briefing or discussion, it will be reviewed to determine whether any price sensitive information has been inadvertently disclosed. If any price sensitive information was disclosed, it will be announced immediately to the market.

Similarly, when answering shareholder questions, price sensitive information will not be discussed unless that particular information has been formally disclosed to the market via an announcement.

Where a question can only be answered by disclosing price sensitive information, the Company will decline to answer it or take it on notice and announce the information to the market prior to responding.

If any new price sensitive information is to be used in briefing media, institutional investors and analysts or in answering shareholder queries, written materials containing such information will be lodged with the relevant authority prior to the briefing commencing. These briefing materials may also include information that may not strictly be required under continuous disclosure requirements.

This policy will form a component of the induction process for all new employees (managers).

The Company is committed to the full and accurate reporting of its financial results. Consequently, when complying with its periodic disclosure requirements, the Company will provide commentary on its financial results. The purpose of the commentary will be to clarify and balance the information in the financial results.

This commentary will be delivered in a manner that is neutral, free from any bias and easy to understand. This may involve the provision of both positive and negative information about the Company that the Company believes is necessary to keep investors fully informed.

The Company respects the rights of its shareholders and to facilitate the effective exercise of those rights the Company is committed to:

- (a) communicating effectively with shareholders;
- (b) giving shareholders ready access to balanced and understandable information about the Company and corporate proposals; and
- (c) making it easy for shareholders to participate in general meetings of the Company.

3.8 Provision of information

The Company will communicate with shareholders in three main ways:

- (a) through releases to the market;
- (b) through information provided directly to shareholders at general meetings of the Company; and
- (c) market releases.

It is the Company's policy to comply with its continuous and periodic disclosure obligations. In accordance with the Company's continuous disclosure policy, unless exempted by the ASX Listing Rules, the Company will immediately notify the market of information:

- (a) concerning the Company that a reasonable person would expect to have a material effect on the price or value of the Company's securities; and
- (b) that would, or would be likely to, influence persons who commonly invest in securities in deciding whether to acquire or dispose of the Company's securities.

3.9 Company website

The Company provides general information about the Company and its operations, details of the Company's corporate governance policies and procedures and information specifically targeted at keeping the Company's shareholders informed about the Company on its website.

In particular, where appropriate, after confirmation of receipt by the relevant authority, the following will be posted to the website:

- (a) relevant announcements made to the market;

- (b) media releases;
- (c) information provided to analysts or the media during briefings;
- (d) the full text of notices of meeting and explanatory material;
- (e) information related to general meetings, including the Chair's address, speeches and voting results;
- (f) copies of press releases and announcements for the preceding year; and
- (g) copies of annual and half-yearly reports including financial statements for the preceding year.

Where possible, the website will also be used for web-casting or teleconferencing analyst and media briefings as well as general meetings of the Company. Where the Company does web-cast the preceding events, and even where it is not possible to do so, a transcript or summary of the information discussed will be posted to the website.

3.10 Direct communications with shareholders

Throughout the year it may be appropriate for the Company to directly communicate with shareholders. For example, to give shareholders notice of general meetings or to update shareholders by way of a Chair's letter.

In relation to information that is directly communicated to shareholders, all shareholders have the right to elect to receive all such information by post, facsimile or electronic mail.

3.11 Meetings of the Company

In preparing for general meetings of the Company, the Company will draft the notice of meeting and related explanatory information so that they provide all of the information that is relevant to shareholders in making decisions on matters to be voted on by them at the meeting. This information will be presented clearly and concisely so that it is easy to understand and not ambiguous.

The Company will use general meetings as a tool to effectively communicate with shareholders and allow shareholders a reasonable opportunity to ask questions of the Board of Directors and to otherwise participate in the meeting.

The external auditor of the Company will be asked to attend each annual general meeting and to be available to answer shareholder questions about the conduct of the audit and the preparation and content of the auditor's report.

3.12 Other information

While the Company aims to provide sufficient information to shareholders about the Company and its activities, it understands that shareholders may have specific questions and require additional information. To ensure that shareholders can obtain all relevant information to assist them in exercising their rights as shareholders, the Company will make available a telephone number and email address for shareholders to make their enquiries.
