

# Going digital Guidance for Restorative Practice

## Digital Excellence Series. Top tips from today's speakers

Dr. Ingo Baresel	Drs. Andrea Agnini & Alessandro Agnini	Clemens Schwerin
1. Work with a digital lab	1. Embrace the "wow" effect	1. Talk to your dental technician about yours and their software solutions
2. Choose the correct scanner for your needs	2. Scan every patient, every visit	2. Always prefer a coordinated interface to an open interface
3. Training, training, training - for yourself	3. Establish a clear vision for IOS usage	3. Because this includes colour, patient info and the margin line
4. Train your team from the start	4. Realise the benefit this can have	4. MyiTero Connector can help you reduce waiting times
5. Don't retreat when the going gets tough	5. Identify who you must speak with to get started	5. Use the "return to doctor" function for quick and easy change requests
6. Listen to experts, mentors and experienced users	6. Complete the initial set up of the scanner	6. "dentalshare" is a great tool for sharing your constructed designs
7. Enjoy digital	7. Build confidence through practice and education	7. Working and designing with digital solutions is the key
	8. Make IOS a part of your team	8. Enjoy digital
	9. Track everything	
	10. Enjoy digital
