

[ Insert Song Title ]

1)

We're in lock down  
but still believe in ourselves  
waiting 'til the months will pass  
our hope will be our crown

PC:

Corona's almost over  
cafés are now back open  
people laugh again, that's what we hope  
2x

**Chorus:****Do good, do good, do good**

(in these difficult times)

**Do good, do good, do good**

(and the stars will rise )

**Do good, do good, do good**

(in these difficult times and the stars will rise)

**Do good, do good, do good**

2)

First week, we live in pain  
the virus in our system  
second week, the virus spreads  
around the whole wide world  
third week, five feet apart  
we have to wear a mask  
fourth week, the vaccine's here  
at last we give it a try

PC:

Corona's almost over  
cafés are now back open  
people laugh again, that's what we hope  
2x

**Chorus**

Bridge:

Everything started, everything started, everything started in China  
Everything started, everything started in 2019

**Chorus**
