Content

5 Squares and Square Roots *8*

Prior Knowledge Squares *10*
5.1 The Formula $y = ax^2 + b$ *11*
5.2 Square Roots and Square Root Formulas *16*
5.3 Simplifying Square Roots *23*
5.4 Square Roots and Powers *31*
5.5 Types of Numbers *34*
Mixed Exercises *38*
Summary *40*
Diagnostic Test *42*
Revision *44*
Investigation Approximating Square Roots *48*

6 Pythagoras' Theorem *50*

Prior Knowledge Equations *52*
6.1 Right-angled Triangles *53*
6.2 Calculating Hypotenuses *56*
6.3 Calculating the Legs of a Triangle *62*
6.4 Applying Pythagoras' Theorem *67*
6.5 Pythagoras in 3D *72*
6.6 The *hpq*-theorem and Thales' Theorem *80*
Mixed Exercises *84*
Summary *86*
Diagnostic Test *88*
Revision *90*
Investigation Proving Pythagoras' Theorem *94*

7 Quadratic Equations *96*

Prior Knowledge Factorising and Expanding Brackets *98*
7.1 Factorising *99*
7.2 The Product-sum Method *103*
7.3 Quadratic Equations *110*
7.4 Solutions *115*
7.5 Setting Up Equations *119*
Mixed Exercises *122*
Summary *124*
Diagnostic Test *126*
Revision *128*
Investigation Sum and Product of Solutions *132*

8 Volume and Enlarging *134*

Prior Knowledge Areas *136*
8.1 Volume of Prisms and Cylinders *138*
8.2 Volume of Pyramids and Cones *145*
8.3 Enlarging and Reducing *151*
8.4 Enlarging an Area *157*
8.5 Increasing a Volume *164*
Mixed Exercises *172*
Summary *174*
Diagnostic Test *176*
Revision *178*
Investigation Self-similarity Study *182*

General Skills *184*
Worksheets *187*
Index *194*
Acknowledgements *196*
