Key Mediator of Stem Cells

# EXOSOMES

Patent No : KR 10-1895916

**ExoSCRT®**

Patent No : US-10071050 B2

Patented Ingredient

**ExoSCRT® Exosome**

Patent No : KR 10-2058444

Patented Ingredient

**Rose Stem Cell Exosome**

Globally patented innovative technology for isolation and purification of exosomes

Stem cell derived exosomes ideal for aged skin;  
anti-inflammation, regeneration and skin barrier reconstruction

Damask Rose's strong vitality and excellent efficacy is  
perfectly preserved in SRLV.

## TRIPLE KEY FACTORS & EFFECTS

**PRDXs**

**Reversed  
Aging**

**Let-7b**

**Anti-  
inflammation**

**CD44**

**Enhanced  
Absorption**

Increase of **Collagen**

Up to **690%**

Increase of **Elastin**

Up to **300%**

Reduce of **Melanin**

Up to **75%**

## EXOBALM®

Next Generation Exosome Regenerative Aesthetics

### W-FORMULA

- Tranexamic Acid
- Madecassoside
- Panthenol
- Niacinamide

### EXO CAPSULE

- Lyophilized ExoSCRT® Exosome
- 5 Growth Factors
- 6 Peptides
- Vitamins, Minerals

# ASCE<sup>plus</sup> EXOBALM

The best exosome solution to alleviate a variety of skin problems

It provides ultimate comfort to damaged skin and regenerates skin barrier to restore your skin to its natural state, maximizing the clinical effects of all types of skin treatments.

From pre-care to post-care of professional treatments, EXOBALM is introduced to complete **ASCEplus Full Care**.

## First Agent EXO CAPSULE

A Crystal of active ingredients

- Skin Regeneration
- Anti-inflammation
- Anti-pigmentation
- Anti-itching

  
**PERFECT  
SYNERGY**

## Second Agent W-FORMULA

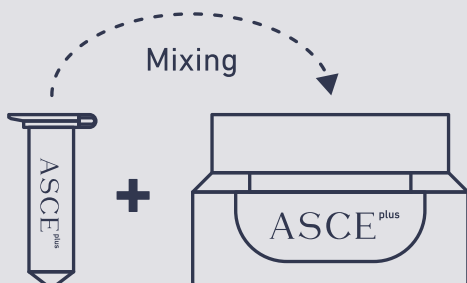

Optimal synergy formula

- Brightening
- Skin Barrier Synthesis
- Skin Soothing

**Faster Healing**

**Better Treatment Outcome**

**Longer Lasting Effect**

**EXO CAPSULE 20 mg + W-FORMULA 20 ml = One kit**

## How to Use EXOBALM

1. Put 1(EXO CAPSULE) into 2(W-FORMULA).
2. Mix well with the enclosed spatula.
3. Apply gently an even layer of the mixture over the skin.

※ Use up 21 days after mixing.

During this period, keep it refrigerated between 4 to 8°C.

# ASCEplus IRLV?

For various reasons, such as aging, menopause, excessive diet, and a decrease in estrogen, the female hormone, the vaginal wall loses its elasticity, making it thin, dry, and easily scarred, resulting in itchy and stinging symptoms.

ASCEplus IRLV normalizes the environment in the vagina, rebuilds the thinned skin barrier, increases moisture retention, improves dryness, and helps restore the original health.

Dry vaginal environment

Thinning and lost elasticity

Itching and burning sensation

Desensitization

Increased water content

Collagen synthesis

Normalization of the vaginal environment

Skin barrier regeneration

## Increase elasticity

Increase collagen synthesis  
up to **690%**

## Improvement of itching

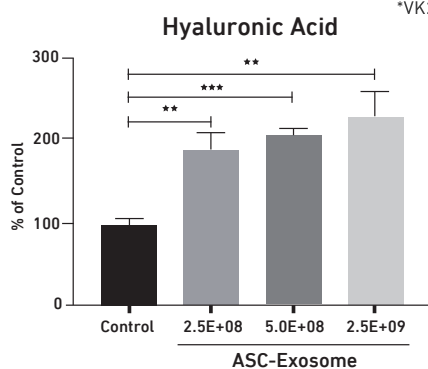

Itch-inducing cytokine reduction  
(TNF- $\alpha$ , IL-31, TSLP, etc.)

## Vaginal dryness improvement

Increases epidermal moisture content by rebuilding the skin barrier

## Increased HA production in VK2 cells

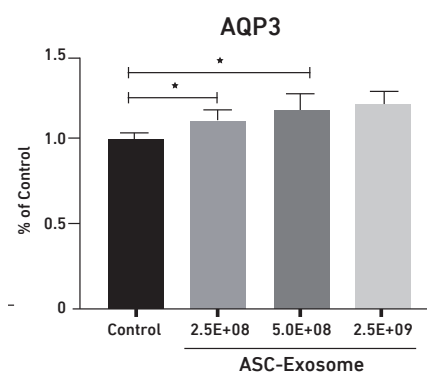

\*VK2 cells : vaginal epithelial cells

Increase in HA production  
up to **120%**

## Aquaporin expression in VK2 cells

\*AQP : Aquaporin

Increased expression of water transport regulatory proteins (AQP3, AQP5)

Source : Ha et al. (2020) Cells 9:680, ExoCoBio, unpublished data

## How to Use

### Vaginal regeneration laser combined use

1

Local anesthesia or sedation anesthesia

2

Laser treatment for vaginal regeneration Step

3

Application of ASCEplus IRLV

Or it can be used as a stand-alone treatment
