

# Product Specifications For 2337 Mm (92 In)

|                                            |                             |
|--------------------------------------------|-----------------------------|
| Blade Width                                | 92 in                       |
| Width - Fully Angled                       | 80.7 in                     |
| Maximum Blade Angle - Right/Left of Center | 30 degrees                  |
| Tilt Angle Range                           | 10° Left/Right              |
| Blade Height                               | 24.4 in                     |
| Overall Height                             | 25.1 in                     |
| Length                                     | 40.5 in                     |
| Weight                                     | 1085 lb                     |
| Cutting Edge Thickness                     | 0.6 in                      |
| Required Hydraulics                        | Standard Flow               |
| Optimal Hydraulic Flow                     | 42-86 L/min (11-23 gpm)     |
| Optimal Hydraulic Pressure                 | 145-235 bar (2100-3400 psi) |
| Interface Type                             | Skid Steer Coupler          |
