Processes

Stick (SMAW)
MIG (GMAW)*
Flux-cored (FCAW)*
RMD®**
Pulsed MIG (GMAW-P)**
DC TIG (GTAW)
Air carbon arc (CAC-A)
  Rated: 3/16-inch (4.8 mm) carbons
  Capable: 1/4-inch (6.4 mm) carbons
Air plasma cutting and gouging
  with optional Spectrum® models

Output Range

DC stick	20 – 400 A
MIG/flux-cored	14 – 40 V
DC TIG	20 – 400 A

Auxiliary Output Rated at 104°F (40°C)

12,000 watts peak, 10,000 watts continuous

*With wire feeder.
**ArcReach models only with ArcReach Smart Feeder.

The professional welder's choice ——

designed with the professional in mind, the Big Blue 400 Pro is the best for ease of use, reliability and fuel economy.

Heavy-duty low-speed T4F and T4i industrial diesel engines designed to operate over 10,000 hours before the first basic overhaul. Backed by worldwide support and service.

Kubota
Kubota V1505 four-cylinder diesel.

MITSUBISHI ENGINE NORTH AMERICA, INC.
Mitsubishi S4L2 four-cylinder diesel.

CAT Diesel Power
CATERPILLAR C1.5T turbo-charged three-cylinder diesel.

DYNAMIC DIG™
Optimized arc control for stick welding applications. See page 2.

ArcReach®
Parameter control at the wire feeder or pendant without needing a control cord. See page 2.

WIRELESS INTERFACE CONTROL

Full control of your machine in the palm of your hand. See page 3.

Durable and built to last in harsh industrial environments.

Superior arc performance.

International models available.

USA model shown is **T4F COMPLIANT**

TRUE BLUE® 3YR. WARRANTY

Engine-driven welder is warrantied for three years, parts and labor.
Engine is warrantied separately by the engine manufacturer.

Big Blue® 400 Pro Features and Controls

Digital meters with SunVision™ technology enable welding parameters to be viewed with greater clarity than analog meters — at virtually any angle. Meters can be seen clearly even in direct sunlight.

Meters display
• Process settings for quick and easy setup
• Preset and actual amperage

Simple-to-set controls require no elaborate procedure — just select process and weld.

10,000 watts of pure auxiliary power. Plug in an extra Miller® inverter-based power source for a second welding arc.

Industrial USB port. Quickly upload the latest software and download machine log files.

56.7°C RATED

Miller engine drives are tested to perform in high-temperature climates, even at the highest recorded temperature on earth — 56.7°C*. They are designed to excel in extreme heat by optimizing engine cooling, reducing harmful environmental effects.

According to the World Meteorological Organization Global Weather & Climate Extremes Archive (https://wmo.asu.edu/content/world-highest-temperature)
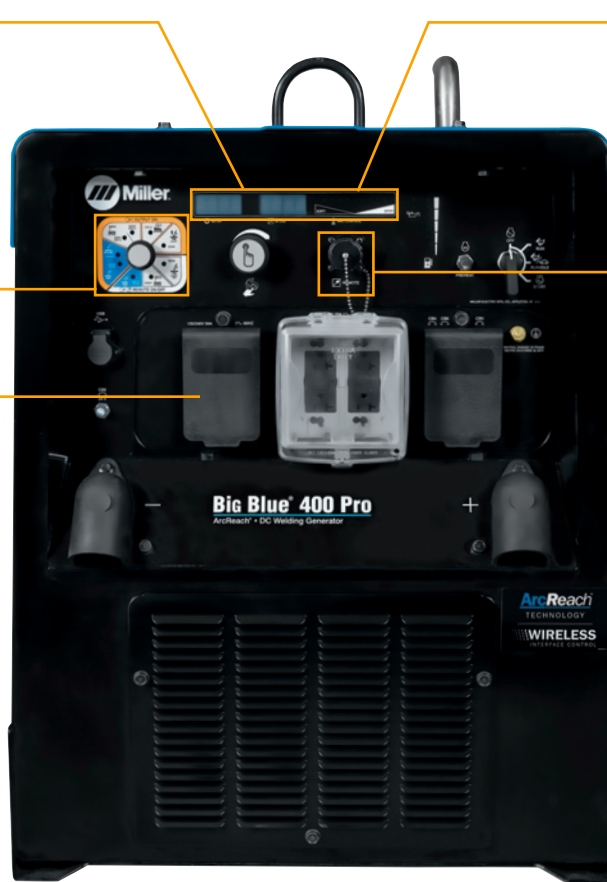

USA model shown

Arc control is beneficial when welding with stick and solid wires for easier fine-tuning of tough-to-weld materials and out-of-position applications.

Standard 14-pin receptacle with Auto-Remote Sense™ for simple connection of remote controls and wire feeders.

Thermal overload protection prevents machine damage if the duty cycle is exceeded or airflow is blocked.

Low OCV stick (VRD), when enabled, reduces the open-circuit voltage to 30 volts when the welding power source is not in use, increasing operator safety without compromising arc starts.

HD powder coat with zinc-rich primer protects sheet metal from rust and corrosion.

Standard features include adjustable Hot Start,™ output contactor control, automatic idle, 120-volt block heater and Dynamic DIG™.

Big Blue® 400 Pro Technologies

Dynamic DIG™ technology

Ultra-adaptive arc control. Unlike conventional DIG that provides a preset amount of short-clearing current, Miller-exclusive Dynamic DIG technology works on a time-based algorithm to optimize metal deposition. Dynamic DIG provides independent control of the fluidity of the weld puddle (arc control) and the drive of the arc (DIG range). This delivers a tailorable and user-friendly arc to match the application, material, fit-up and welder technique.

ArcReach® technology (option)

Parameter control at the wire feeder or pendant without needing a control cord. An ArcReach system allows you to change weld settings from your ArcReach feeder or stick/TIG remote, saving a trip to the power supply. ArcReach technology uses the existing weld cable to communicate welding control information between the feeder or stick/TIG remote and the power source. This technology eliminates the need for control cords, and their associated problems and costs.

ArcReach-equipped power sources work with non-ArcReach accessories; however the ArcReach benefit is only realized with the complete ArcReach system. This includes an ArcReach-equipped machine and one or more of the following accessories:

• ArcReach SuitCase feeder
• ArcReach Smart Feeder
• ArcReach Stick/TIG Remote

Big Blue® 400 Pro Technologies

Wireless interface control (option)

WIRELESS
INTERFACE CONTROL

Work hassle-free with full engine-driven welder control in the palm of your hand.

With wireless interface control, you can remotely switch between welding processes, adjust parameters, select and save preset programs, turn the machine on/off, get service reminders and more from wherever you are on the jobsite — for a more productive day.

Maximize fuel savings and reduce unnecessary engine hours when you use wireless interface control to instantly turn your machine off when needed.

Extend time between fill ups and maintenance intervals while eliminating the need to go back to your machine or climb into the truck to make adjustments.

Wireless interface control is a factory-installed option available on the Big Blue 400 Pro.

VIEW STATUS
View engine status, fuel level, and battery charge level of remote.

SELECT PROCESSES
View and select between all available processes.

CONTACTOR ON/OFF
Turn contactor on/off manually in remote welding mode.

ENGINE ON/OFF
Turn engine on/off with remote.

CUSTOM PROGRAMS
Save custom presets in up to four programs and easily switch between pre-programmed settings.

FINE-TUNE ARC
Quickly adjust and save arc control settings including DIG, DIG range inductance and Auto-Stop™.

AMP/VOLT ADJUST
Adjust amperage or voltage, by increments or percentage, while welding.

Big Blue® 400 Pro Benefits

Easily update technology

With the industrial USB port, you can easily upload the latest software and download machine log files to retrieve in-depth information from your machine such as diagnostics and statistics.

Visit **MillerWelds.com/support** to download the latest software updates.

Less noise

Quieter jobsites are more productive because work crews can communicate easier. The Big Blue 400 Pro is only 71.6 decibels (96 Lwa) under a full load, allowing for easier jobsite communication. Optional wireless interface control makes it easier to shut off your machine when it's not in use, so you can lower jobsite noise levels and hear what's going on around you.

Jobsite safety

Reduce the need to walk back to or climb into the truck bed to make process and parameter changes, or turn your machine on/off. ArcReach® technology provides parameter control at the wire feeder or stick/TIG remote and optional wireless interface control provides full front panel control in the palm of your hand, so you can lower the risk of encountering potential jobsite hazards.

Trailer package (option)

Package consists of the Big Blue® 400 Pro engine drive and HWY-mid frame trailer pre-assembled at the factory, eliminating the need for assembly by end users. Also includes Tweco®-style connectors and 2-in-1 document/fire extinguisher holder. See page 8.

Miller.

℗ Certified by Canadian Standards Association to both the Canadian and U.S. Standards. Meets NEMA and IEC output ratings.

Engine Specifications (Engines warrantied separately by the engine manufacturer.)

	Engine Brand	Features	HP	Type	Engine Speeds	Capacities	Automatic Engine Shutdown
USA	Mitsubishi S4L2	EPA Tier 4 Final compliant, includes 120 V block heater	24.7	Four-cylinder, liquid-cooled industrial diesel	Idle: 1,500 rpm Weld: 1,800 rpm	Fuel: 11.5 gal. (43.5 L) Oil: 6 qt. (5.7 L) Coolant: 6 qt. (5.7 L)	Low oil pressure, high coolant temperature, low fuel level
USA / Int'l	Kubota V1505		20.2	Four-cylinder, liquid-cooled industrial diesel			
USA / Int'l	Caterpillar C1.5T		24.7	Turbo-charged three-cylinder, liquid-cooled industrial diesel		Fuel: 11.5 gal. (43.5 L) Oil: 5.9 qt. (5.6 L) Coolant: 6 qt. (5.7 L)	

Performance Data

Fuel Consumption Curve

Liters/Hr. / Us Gal./Hr. vs. DC Weld Amperes at 100% Duty Cycle
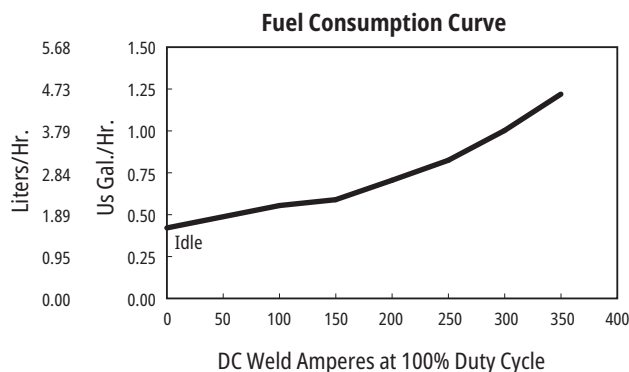

Simultaneous Welding and Power

Weld Amperes	Total Aux. Power Available (Watts)
25 A	10,000
75 A	10,000
125 A	10,000
175 A	9,000
225 A	7,500
300 A	4,500
350 A	1,000

Miller.

Function Guide

1. **Self-calibrating digital weld meters with fault code indication** display preset or actual weld parameters.

2. **Pushbutton main control knob** used for adjusting amperage/voltage, adjusting arc control, and accessing the service menu.

3. **LED process indicator.** Front panel process selections are illuminated with an LED that identifies the active process. This enables the selected weld process to be seen at a distance from the power source.

4. **Lift-Arc™ TIG with Auto-Stop™ and Auto-Crater.™**

5. **USB port** allows software updates from a USB drive. A summary file of recorded data from the unit will be saved to a USB drive that is inserted.

6. **Weatherproof Lexan® nameplate** is super durable and resists cracking and fading.

7. **Adjustable fine arc settings** adjusts arc control when in stick processes or inductance when in CV/wire processes to change the weld puddle fluidity. In TIG, Auto-Stop adjusts the arc length at which the arc will terminate. The fine settings assist the operator to get a more tailored arc for their application.

8. **Maintenance interval reminder.** Yellow and red indicator lights let an operator know when the machine is approaching and finally in need of routine maintenance.

9. **Fuel indicator gauge.** Low fuel shutdown shuts engine off prior to running out of fuel to prevent loss of fuel in the system, and make restarts easy.

10. **Glow plugs** assist in cold weather starting.

11. **Engine control switch** is used to start the engine and then select between auto idle and high speed lock.

12. **Standard 14-pin receptacle** for simple connection of remote controls and wire feeders. Includes **Auto Remote Sense™** which automatically switches from panel to remote amperage/voltage (A/V) control with remote connected. Eliminates confusion of a panel/remote switch.

13. **50 A, 120/240 V receptacle and 20 A, 120 V GFCI receptacles with circuit breakers**
*Note: For matching 240 V plug, order **119172**.*

14. **Weld output terminals**

15. **International receptacle panel with 16 A, 240 V receptacle, 20 A 120 V GFCI receptacle and 32 A, 240 V receptacle with circuit breakers**
*Note: For matching 240 V, 16 A plug, order **255416** and for matching 240 V, 32 A plug, order **255418**.*

USA model

International model receptacles

ARC START *with Lift-Arc™*

Touch or scratch — Shielding gas, Workpiece
**Lift at any angle** — Arc, Shielding gas
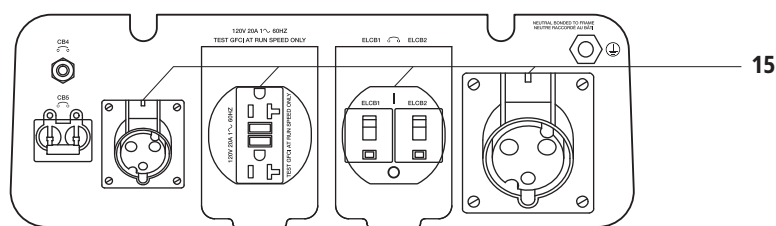

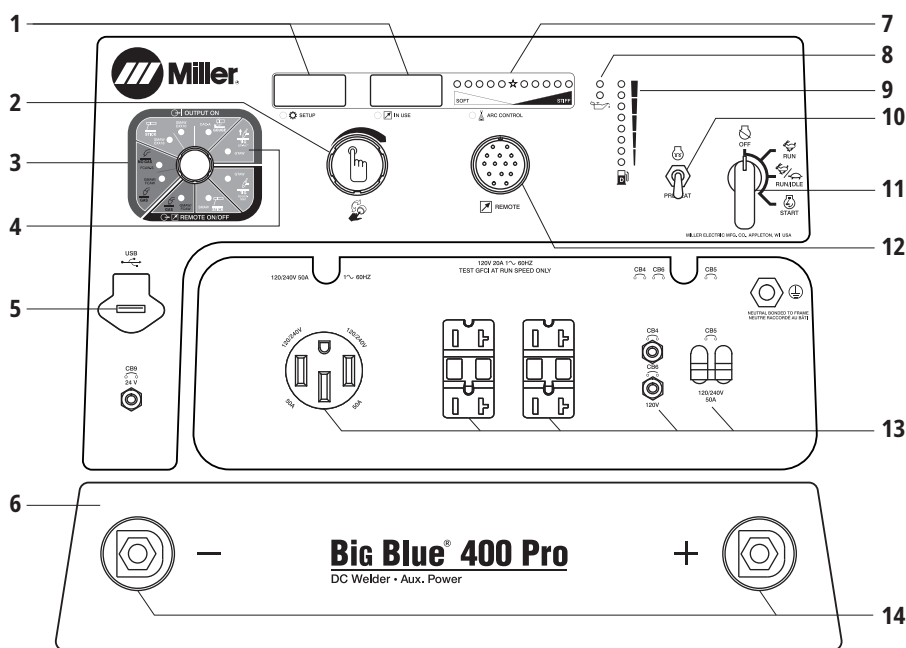

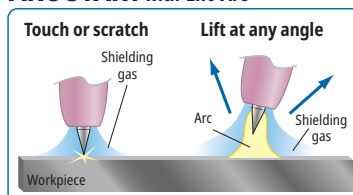

- Reduces or eliminates sticking
- Reduces or eliminates electrode/work contamination
- Low open-circuit voltage

ARC END *with Auto-Stop™*

While welding — Arc, Shielding gas, Workpiece
For Auto-Stop, lift up to terminate arc — Lift up until arc ends, Arc ends without flare, Move back down to maintain gas coverage

- Eliminates need for a remote control
- Maintains shielding gas coverage
- Eliminates tungsten and workpiece contamination
- Eliminates unwanted arc strikes outside the weld area

ARC END *with Auto-Crater™*

While welding — Arc, Shielding gas, Workpiece
To start Auto-Crater, press momentary contact switch — Welding current ramps down, Maintain shielding gas coverage

- Maintains shielding gas coverage
- Eliminates tungsten and workpiece contamination
- Auto-Crater time allows for addition of filler
- Eliminates unwanted arc strikes outside the weld area

Genuine Miller® Accessories

Wireless Interface Control Replacement Kit
288137 Field
Replacement kit for wireless interface control machines. NOT compatible with machines that are not equipped with wireless interface control. Includes replacement remote, magnetic lanyard, USB charger, 110-volt adapter, and two screen protectors.

Wireless Interface Control Protective Covers
287594 Field
Five-pack of screen protectors for wireless interface control remote.

Female Receptacle

Full KVA Adapter Cord **300517** Field
NEMA 14-50P to NEMA 6-50R. Adapts engine drive 120/240 V plug to common Millermatic® and Spectrum® 240 V plug.

Full KVA Plug Kit
119172 Field
120/240 V, 50 A plug (NEMA 14-50P) to fit full KVA receptacle.

International Plug
255416 Field
1-phase, 240 V, 16 A plug

Engine Filter Kits Field
252782 For Mitsubishi (USA)
253901 For Kubota (USA/Int'l)
274427 For CAT Turbo (USA/Int'l)
Includes all filters required for proper engine maintenance. Oil filter, primary and secondary fuel filter, and primary air filter.

Spark Arrestor (Muffler) Kit
300585 Field
Prevents particles from leaving the muffler that could potentially start a fire. Mandatory when operating on California grasslands, brush, or forest-covered land, and in all national forests. For other areas, check your state and local laws. Meets U.S. Forest Service Standard 5100-1B.

FA-1D Lockable Flame Arrestor Fuel Cap **043947** Field
Fuel cap can be padlocked to prevent vandalism. A built-in flame arrestor prevents flames or sparks from entering the fuel tank.

Remote Output Panel Kit **951850** Field
If your engine-driven welder is mounted on a truck, easily locate the outputs at the point of use with the auxiliary power and weld output remote panel. See literature AY/20.5.

Protective Cover **195301** Field
Blue water-resistant cover with Miller logo resists stains and mildew, and protects the finish of your welder.

MIG/Flux-cored Welding

ArcReach® SuitCase® 8
951726001 With Bernard® BTB Gun 300 A
951727 With Bernard® S-Gun™
951728 With Bernard® Dura-Flux™ gun
ArcReach® SuitCase® 12
951729001 With Bernard® BTB Gun 300 A
951730 With Bernard® S-Gun™
951731 With Bernard® Dura-Flux™ gun
ArcReach® SuitCase® 12 Heavy Duty
301604 Feeder only — for 3/32-inch cored wire
Portable feeder designed to run off of arc voltage. When paired with an ArcReach power source, provides remote control of the power source without a control cord — saving time and money. See literature M/6.55.

ArcReach® Smart Feeder **951733**
For use with ArcReach models only (see page 3 for more information). Includes drive rolls and Bernard® PipeWorx 300-15 MIG gun. For MIG, FCAW, and advanced RMD® and pulse processes. See literature M/6.55.

SuitCase® 12RC Wire Feeder **951580001**
Lightweight and flexible enough to run wires up to .062-inch diameter. Includes remote voltage control, drive roll kit and Bernard® BTB Gun 300 A. See literature M/6.5.

MIG (GMAW)/Flux-cored (FCAW) Guns
See Bernard® literature SP-BTB for BTB air-cooled MIG guns, and SP-DF for Dura-Flux™ self-shielded flux-cored guns.

Spoolmatic® 30A Spool Gun **130831**
Air-cooled, 200-amp, one-pound spool gun for aluminum and stainless MIG. See literature M/1.73. Requires WC-24 Control **137549**.

XR™ Wire Feeders and Guns
Push-pull system designed to handle difficult-to-feed soft alloy wires such as aluminum. See literature M/1.7 through M/1.74.

TIG (GTAW) Welding

The Dynasty 210 power sources can be run off the engine drive's auxiliary power to provide two arcs with only one engine.

Dynasty® 210 Series
For portable AC/DC TIG. See literature AD/4.81.

Multiple Operator Welding

The XMT 350 FieldPro and CST 280 power sources can be run off the engine drive's auxiliary power to provide two arcs with only one engine.

XMT® 400 ArcReach®
See literature DC/18.97.

CST™ 282
See literature DC/29.6.

Miller®

Plasma Cutting

Spectrum 375 X-TREME and 625 X-TREME shown.

Spectrum® 375 X-TREME™   907529
See literature PC/9.2.

Spectrum® 625 X-TREME™   907579
See literature PC/9.6.

Spectrum® 875   907583
See literature PC/9.8.

The Spectrum 375 X-TREME and 625 X-TREME come complete with protective X-CASE™ (not shown).

Stick/TIG Remote Controls

ArcReach® Stick/TIG Remote 301325
When paired with an ArcReach power source, provides remote control of the power source without a control cord — saving time and money. See literature AY/14.5.

RHC-14 Hand Control 242211020
Miniature hand control for remote current, voltage and contactor control. Dimensions: 4 x 4 x 3.25 in. (102 x 102 x 82 mm). Includes 20-foot (6 m) cord and 14-pin plug.

Wireless Remote Hand Control   301582
For remote current, voltage and contactor control. Receiver plugs directly into the 14-pin receptacle of Miller machine. Up to 300-foot (91.4 m) operating range. Wireless antenna kit **300749** is recommended.

Wireless Antenna Kit   300749
Recommended for improved reception.

RMS-14 On/Off Control   187208
Momentary-contact switch for contactor control. Rubber-covered pushbutton dome switch ideal for repetitive on-off applications. Includes 26.5-foot (8 m) cord and 14-pin plug.

RCC-14 Remote Contactor and Current Control   151086
East/west rotary-motion fingertip control attaches to TIG torch using two hook-and-loop fasteners. Includes 26.5-foot (8 m) cord and 14-pin plug.

PRHC-14 Hand Control   195511
Complete current or voltage control brings 120 volts GFCI power to work area in a single cord. Housed in a durable, light aluminum case and includes 125-foot (38 m) cord with plugs.

Extension Cables for 14-Pin Remote Controls or 24 VAC Wire Feeders
242208025 25 ft. (7.6 m)
242208050 50 ft. (15.2 m)
242208080 80 ft. (24.4 m)

Trailers and Hitches (Note: Trailers are shipped unassembled.)

HWY-Mid Frame Trailer   301438
1,424-pound (646 kg) capacity highway trailer with welded steel tubing frame, heavy-duty axle with roller bearing hubs and leaf-spring suspension. Includes jack stand, fenders, lights, and dual hitch with 2-inch (50 mm) ball hitch and 3-inch (76 mm) lunette eye.

Cable Tree   043826
Provides an area to conveniently wrap weld cables and extension cords.

Dual Hitch   301441
Combination 2-inch (50 mm) ball hitch and 3-inch (76 mm) lunette eye in one reversible assembly.
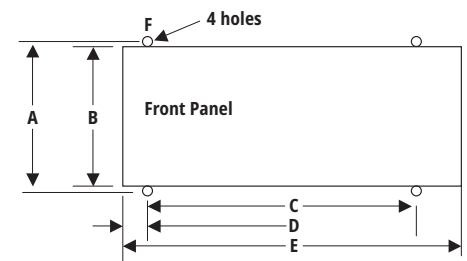

2-In-1 Document/ Fire Extinguisher Holder 301236
Stores documents and holds a 5-pound fire extinguisher.

Note: Holder shown mounted on trailer. Fire extinguisher not included.

Mounting Specifications

A. 27.75 in. (705 mm)
B. 26.25 in. (667 mm)
C. 52.25 in. (1,327 mm)
