

Coloring Page

Supplies you'll need:

- Coloring pencils
- Googly eyes (optional)

Instructions:

1. Grab all your coloring pencils.
2. Color the flowers in your favorite colors. Let your imagination guide you, these are your flowers, color them however you want.
3. If you like, you can take the googly eye stickers and add them to the flowerheads after you're done coloring. When you don't have googly eyes at hand, just draw your own cute faces! Don't the flowers look even friendlier when they're smiling at you?

Tip: Googly eyes are such a fun craft supply! Have you ever tried sticking them on random household objects? Maybe stick a couple of eyes on a watering can or above a doorknob and see how they transform it! Find as many objects as you can that suddenly look like they have faces when you stick the eyes on them.
