

## Hurtigruten: Monthly Booking Update – May 2021

Last changed: Thursday, May 27, 2021 6:30 AM

The tables below compare booking levels as of the 25<sup>th</sup> of May 2021 with comparable booking numbers at the same time last year or at the same two years ago. The comparable period is stated in the different tables. In general, we are experiencing an improving underlying booking momentum across all markets and business segments.

Bookings for 2020/2021 as of				25. mai	2020/2021
<i>EURm</i>	Q1	Q2	Q3	Q4	Total
2019	98	129	171	111	509
2020	97	30	88	77	291

2021	2	13	76	71	163
------	---	----	----	----	-----

Total bookings for Q4 2021 is close to the Q4 2020 booking level same time last year.

Booking inflow for 2020/2021 last 30 days as of	25. mai	2020/2021
---	---------	-----------

<i>EURm</i>	Q1	Q2	Q3	Q4	Total
2020	(2,5)	(43,3)	(24,1)	(,6)	(70,5)
2021	,0	(24,2)	2,2	1,8	(20,2)

2H 2021 has improved over the last 30 days with the positive news on the potential lifting of travel restrictions for vaccinated travelers in July 2021

Bookings for 2021/2022 as of				25. mai	2019/2020/2021
<i>EURm</i>	Q1	Q2	Q3	Q4	Total
2020	58,2	29,1	28,1	12,9	128,3
2021	47,0	43,3	32,8	11,3	134,5
2022	64,7	50,9	51,7	18,7	186,0

Hurtigruten Group has experienced a strong booking momentum for sailings in 2022. 2022 bookings are, as of the 25th of May, 45% higher compared to the same time two years ago for 2020 booking levels based on the same capacity, which shows a strong underlying demand for future sailings.

Booking inflow 2020/2021/2022 last 30 days as of 25. mai 2019/2020/2021

<i>EURm</i>	Q1	Q2	Q3	Q4	Total
2020	4,2	6,9	3,7	3,4	18,2
2021	1,4	11,5	11,3	2,0	26,2
2022	6,2	15,5	11,6	3,3	36,6

2022 booking inflow over the last 30 days is 101% higher than the 2020 booking inflow for the same 30-day period in 2019. Adjusted for re-bookings the growth in new bookings is 34% compared to same period in 2019.
