

LET'S GET  
**50**  
SCHOOLS  
FIT FOR THE  
FUTURE

Region: Eastern Cape Province

**SOUTH AFRICA WINS • WASH IN SCHOOLS**

# WATER FOR ALL – ALL FOR WATER!

## VIVA CON AGUA IS COMMITTED TO A WORLD WITHOUT THIRST!

Viva con Agua (VcA) is a non-profit organization committed to ensuring that all people worldwide have access to clean **DRINKING WATER**. That is why we support water projects and campaigns at home and worldwide based on the motto **WATER FOR ALL – ALL FOR WATER**. We rely on a lot of positive activism.

We create awareness for the global issues of water, sanitation and hygiene (WASH). As an **ALL PROFIT** organization (non-profit sounds too joyless), we use the universal languages music, art and sports to activate people for clean drinking water and to generate donations.

This money goes into **WASH PROJECTS** in an increasing number of project countries. The measures improve the living conditions of many people in the long term. Our core project countries are currently South Africa, Uganda and Ethiopia.

# THE LOCAL SITUATION

The greatest challenges in South Africa lies with the poorer Provinces like the Eastern Cape, especially in the country's public schools where there is a backlog in the WASH supply.

The situation has worsened due to the corona pandemic. The schools in the Eastern Cape Region were not prepared for operation under these conditions.

That is why we developed a very special project for sustainable water supply in South African schools:

## SOUTH AFRICA WINS • WASH IN SCHOOLS

**LET'S GET 50 SCHOOLS FIT FOR THE FUTURE TOGETHER!**

Clean drinking water, colourful toilets and creative hygiene workshops make the schools in the Eastern Cape Province national role models and at the same time strengthen the health of the kids.

# WE NEED YOUR SUPPORT

With your donation you can support Viva con Agua and our local partners in implementing the measures at 50 schools. The measures include:

We build or renovate **WATER SUPPLY POINTS** at 50 schools (rain catchment systems and water reservoirs).

We create sanitary and hygienic facilities such as **TOILET BLOCKS** with separate cubicles for school children with **HANDWASHING FACILITIES** next to the toilet blocks.

**HYGIENE WORKSHOPS** in the usual playful Viva con Agua approach including music, art and sports.

In order to ensure the effective and long term use of the facilities, we are also promoting the establishment of **50 HEALTH CLUBS** in the schools – local school groups impart WASH knowledge in a playful, joyful and eye-to-eye manner.
