METRIE.COM

# WE ARE METRIE

Operating six domestic manufacturing facilities between the U.S. and Canada, we are proud to be the largest manufacturer of MDF moulding in North America. With our commitment to product quality and waste reduction, we're building a brighter more responsible Metrie.

## EXTENSIVE REACH WITH A LOCAL FEEL

Metrie has the broad reach and supply chain expertise of an industry leader with the personal touch of a family business.

Since 1926, we've honed our love of beautiful millwork into solutions that transform houses into remarkable homes, backed by expert support that ensures your renovation is in good hands.

## STORAGE, HANDLING, AND PREPARATION OF ALL MOULDINGS AND S4S BOARDS

Prior to installation, it is important to acclimate your moulding and trim products by storing them in the installation space for at least 3 days. Wood and wood based products can expand and contract depending on internal and external environmental moisture levels. For best results, be sure to store products in a dry location and transport only if fully protected from water. Keep products clean from dirt and debris and finish according to paint and stain manufacturers' recommendations.

PRODUCT CATEGORY

BASEBOARD

Great baseboards create a smooth transition from the floor to the wall, guiding you seamlessly from room to room. They work in harmony with your door and window casings, and should be slightly thinner than your casing for a proper installation.

An architrave is a form of trim used to accent the top of a doorway, window or opening. It may also be referred to as a header or pediment. High above windows and doors, architraves work to add grandeur to any space – reducing miter lines and elevating your look.

An astragal is commonly used as a seal between a pair of double doors, often in conjunction with a flush bolt. The astragal closes the clearance gap between two doors, making closing a pair of doors together easier. The vertical moulding attaches to a stile on one of a pair of doors against which the other door strikes or closes.

Chair rail creates a beautiful room accent that's practical, yet decorative. Applied to a wall anywhere from 24 to 72 inches up from the floor, they can be used to protect the wall from scuffs and dents from the backs of chairs. The chair rail runs along the wall, parallel with the baseboard and is often paired with a wainscot treatment.

A door stop is attached to the door jamb on both sides and at the top. It is where the door comes to a rest when it is closed, stopping the door from moving any further and covering the gap that would otherwise appear between the door and the jamb. In window trim, a stop holds the bottom sash of a double-hung window in place and can also be used as an apron under window stools.

# THE LESS WORK MILLWORK.

Tested and proven by the Home Innovation Research Lab, Metrie Complete® pre-finished Millwork has been proven to save time, money and blue Tape!

## DON'T UNDERESTIMATE MOULDING

Progressive builders across the country are carrying over best practices from flooring and cabinets into millwork. Metrie Complete® Pre-finished millwork innovates the build process resulting in a reduction of costs on every home and a faster closing.

## THE METRIE COMPLETE® ADVANTAGE

TRIM TIME & COSTS WITHOUT TRIMMING QUALITY.

**SUPPLY** - Supplied from Metrie's North American manufacturing and pre-finishing facilities.

**PROCESS** - Streamlined and patented install and finishing process that saves time and labor.

**QUALITY** - Meets factory color, sheen & texture thresholds with special paint additives to protect the finish and deliver a consistent quality product.

**SUPPORT** - In-field install support, including accessory training, install and spec sheets, and hands on support to help drive success.

**POLAR WHITE CAULKING**

Colour-matched for use with Metrie Complete® pre-painted products. This sealant should be used to fill joints and gaps between the walls and edges of the trim after the installation.

**POLAR WHITE WAX FILL STICK**

Colour-matched for use with Metrie Complete® pre-painted products. Our Premium Wax Filler is a quick and easy way to fill in nail holes after installation. It is also ideal for touching up any future blemishes that may occur over the life of the moulding.

**BUFFING PAD**

Buffing pad can be used to remove excess wax from the face of the trim.

Images shown are not to actual size.

**POLAR WHITE PUTTY FILLER**

Colour-matched for use with Metrie Complete® pre-painted products. Our Premium Finishing Putty is a quick and easy way to fill minor seams and voids or to make small cosmetic repairs.

**SCRAPER CARD**

Scraper card used to remove excess product from Metrie Complete® mouldings and boards.

**BUILDER KIT**

Colour-matched for use with Metrie Complete® pre-painted products, our finishing Kits include a premium wax stick, buffing pad and leveling card to fill nail holes, buff and remove loose wax for a smooth finish.

**INTERIOR MILLWORK COMBINATIONS**

The most popular trends, reimagined by our top designers.

METRIE.COM/OPTION-M

Charming and warm, this style brings historical Craftsman design into the present day. Strike a balance between strong, handcrafted elements and lush, inviting comforts that make it easier to enjoy the pleasures of home.

Create a contemporary twist on the traditional wainscot wall by installing panel moulding in vertical lines between the baseboard and chair rail.

Channel the romance of this style. Create cozy interiors with delicate, distressed décor. It's all about embracing imperfections and finding beauty in soft flourishes and timeworn elegance.

Install chair rail just above your baseboard and below your crown to create visual interest and a nicely framed wall. Keeping the trim white against a darker painted wall adds a nice pop of color.
