*Thinner outer style will not affect functionality.

**Not for use with double doors.

Note: 48", 60" and 72" bifolds are achieved by doubled 24", 30" and 36" bifolds.

Moulded Panel Doors Notes: Please note that some sizes are only available as a result of being trimmed from a larger facing. The trimming process may result in a stile width that is too narrow to accommodate a standard bore. To machine a standard bore with a 2-3/8" backset on the lock hole and a 2-1/8" diameter bore, the outer stile measurements must be no less than 3-7/16" wide. Many facings have a lock rail that will accommodate a standard bore even when the stile width is too narrow. Please refer to Masonite Moulded Door Facing Dimensional Specifications to verify the outer stile measurements or contact your Masonite Interior Door servicing plant. Textured refers to embossed wood grain. Pre-finished white is available as textured only. Not all moulded panel designs and sizes are available in all regions as stock products. Please check for special order availability.
