

Technical specification

EMULSION TANK

Normet Multimec compatible cassette design
Stainless steel AISI 304 tanks and piping
Carbon steel base structures
Tank volume (100% fill) 2 x 3 m³
Transportation capacity 2 x 4200 kg with 1,4kg/l
emulsion matrix nominal weight
Two round lockable 20" lids
Breather vents for each tank
Working deck with telescopic ladders and foldable
hand rails with lock pins

Optional equipment

EMULSION PUMP

Pneumatic pump for discharge

- 3" connection
- requires external pressurized air

Designed and manufactured according to process and instrumentation schema 100112617.

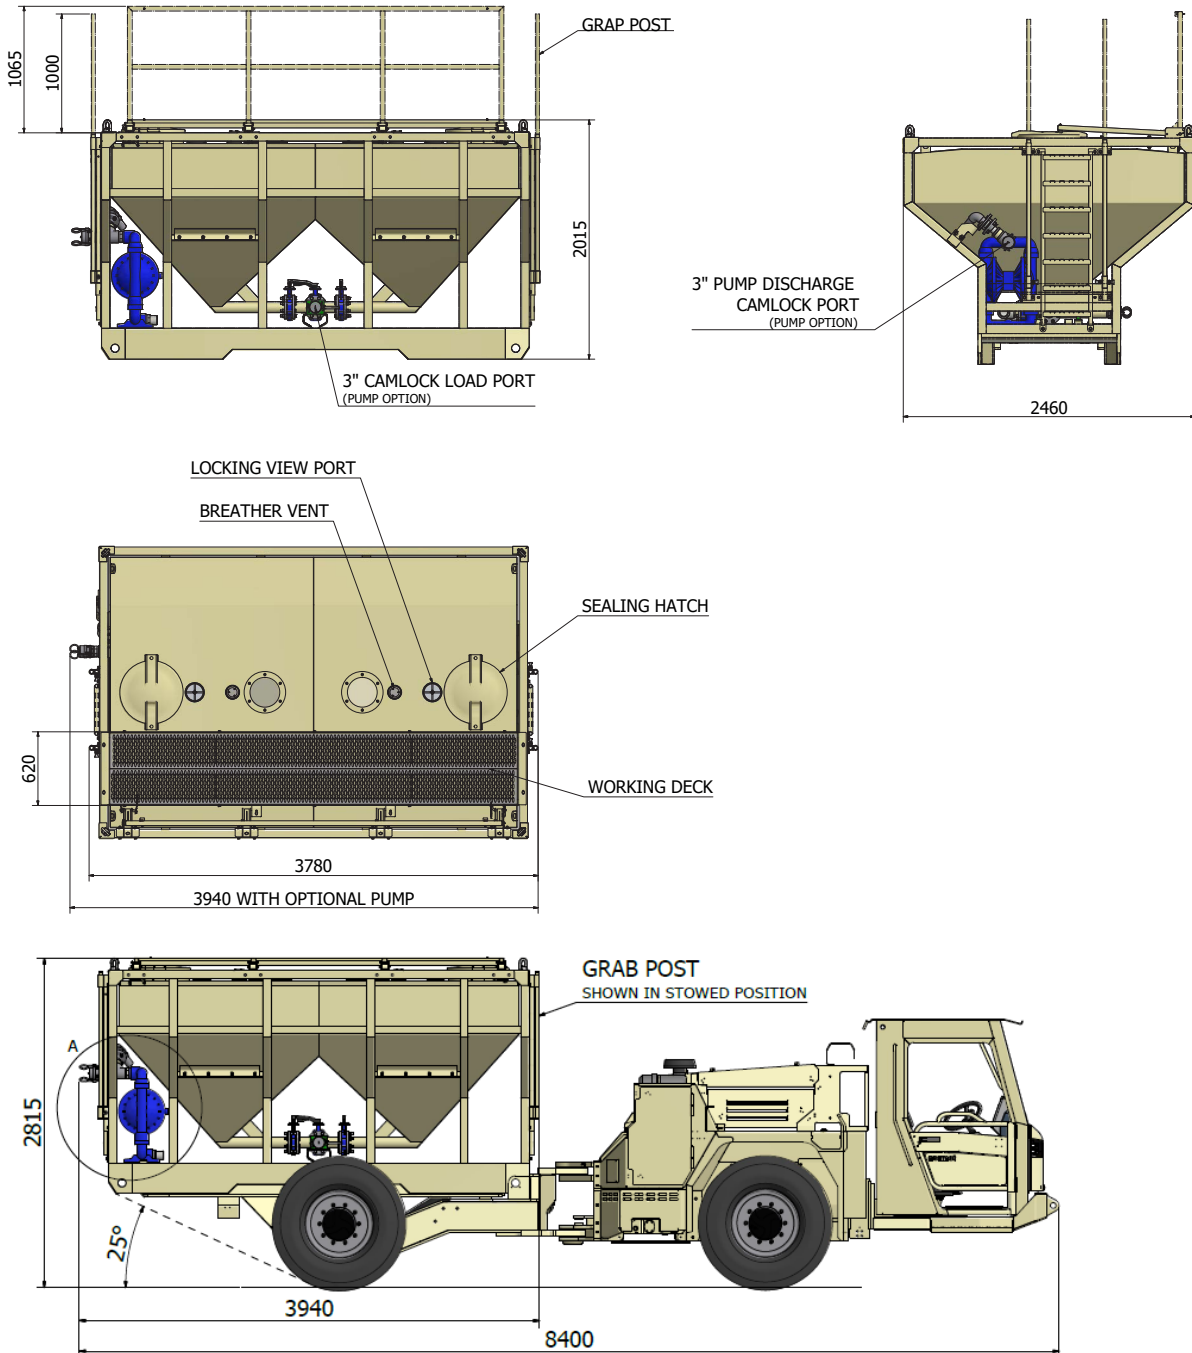

Normet reserves the right to change this specification without further notice.

Dimensions

DIMENSIONS

Length	3780 mm
Length with Multimec MF 100	8400 mm
Width	2460 mm
Height	2015 mm
Height with Multimec MF 100	2815 mm

WEIGHT

Operating weight:	
• Empty	2300 kg
• Fully loaded	10700 kg

Normet reserves the right to change this specification without further notice.
