

DESCRIPTION

Garock Barrel and Wedge Anchors are used to secure roof plates on 15.2 mm diameter x 7 wire strand cable bolts. They provide positive support to the rock face at the collar of the hole

- › Barrel & Wedge Anchor can be used on one, two or multiple strand (15.2) cable bolts in either bold or plain stands.
- › Barrel & Wedge Anchors suit flat and domed flat plates, commonly used for Cable Bolts.
- › Barrel & Wedge Anchor can be used to pre-stress cable bolts prior to grouting. They can also be fitted to grouted cable bolts to secure additional mesh or W strap.
- › The wedge in the anchor has hardened serrations to provide a positive grip on the strand. Each wedge consists of two or three segments, secured by a ring to ensure wedge alignment and initial clamping.
- › The barrel is manufactured from tree machining steel to resist splitting.
- › Barrels can be galvanised or zinc plated.
- › Alternative Barrel & Wedge Anchor sizes can be manufactured to suit various applications.

PACKAGING

- › Supplied in buckets of 50 units
