

## MARPLE NEIGHBOURHOOD PLAN

### **PLAN BOUNDARY**

#### Description of Plan Boundary

##### Section A - B Stockport Road to Marple Aqueduct

Boundary starts at north west of the Stockport Road / Dooley Lane junction (the Dan Bank traffic lights) and follows the west side of Dooley Lane to Otterspool Bridge. From here it continues along the bed of the River Goyt from Otterspool Bridge to Marple Aqueduct. (Marple Garden Centre is included in the boundary, but Chadkirk Industrial Estate is excluded). The boundary then leaves the river at Marple Aqueduct and changes to the Peak Forest Canal.

##### Section B - C Marple Aqueduct to Brabyns Brow

Boundary follows the bed of the Canal to the railway tunnel – then it follows to east side of the railway to cross Brabyns Brow. Then it skirts the north-east boundary of the public car park and goes through the woods down to the bed of the River Goyt (Omitting the Midland Hotel and its car park).

##### Section C - D south of Brabyns Brow to Strines Road

Boundary follows the bed of the River Goyt, past the Roman Lakes, under the railway viaduct and crosses Marple Pack Horse Bridge to climb bridle way to Strines Road.

##### Section D - E Strines Road to Windlehurst Road/Macclesfield Canal

Boundary follows Plucksbridge Road, including the hairpin bend, and then Hollinwood Lane; at the former Romper p.h. it crosses Ridge Road and follows Ridge End Fold. It then follows the public footpath north westwards to Victoria Cottage. It then crosses Windlehurst Road at Broadhurst's Bridge and meets the Macclesfield Canal

##### Section E - A Windlehurst Road to Stockport Road

Boundary follows Torkington Brook and crosses Stockport Road immediately to the west of its junction with Dooley Lane, rejoining the start point A
