Adult Social Care

The cost of adult social care is increasing due to the increasing demand for services which support our elderly and vulnerable residents.

As a provider of adult social care services Stockport Council is allowed, by Central Government, to include an Adult Social Care Precept on Council Tax Bills. For 2019/20 this Precept will increase by 1% raising additional income to support the funding of the increasing costs of providing adult social care services. This additional income ensures the Council is able to provide essential frontline services to our most vulnerable residents.
