## **CHEADLE TOWNS FUND BOARD MEETING**

Date	14 <sup>th</sup> April 2023 at 15:30	
Venue	MDC Office, Stockport and MS Teams	
Present	Brian Bradley Sharon Seville Mary Robinson, MP Cllr. Tom Morrison Cllr. David Meller Simon Elliott Paul Richards SMBC Robert Botwright - Chair, Partner Clarke Nicklin - President, GM Chamber (Stockport) - MP for Cheadle, Conservative - Councillor Cheadle Hulme N. Lib Dem - Councillor Cheadle Hulme N. Labour - Head of Rail Programme, TfGM - Director of Development & Regeneration,	
	Observers / Presenters	
	Aaron Knowles Grace Popplewell Michael Fisher SMBC  - Cities & Local Growth Unit, BEIS & DLUHC - Cities & Local Growth Unit, BEIS & DLUHC - Development and Regeneration, Manager,	
	Gerrard Kelly - Station Project Manager, SMBC Robert Goulsbra - Head of Development and Regeneration,	
	SMBC Christopher Palmiotto - Programme Support Manager, DfT	
	Oliver Williamson - Mary Robinson's PA Stephen Barnes, Tony Fox, Brian King - Network Space	
Apologies	Phillip Gould-Bourn - Cheadle Village Partnership	
Item		Actions
1.	Welcome and Introductions	
	Brian Bradley undertook introductions Apologies received as above	Noted
	Verbal confirmation was given that no Board member had any declarations of financial and personal interest.	Noted
2.	Actions from Last Meeting	
	MF confirmed that the old vinyls had been removed from the BT Exchange building windows.	Noted
	Other actions covered under Item 3.	

3A.	Eco Business Park Project Update: Robert Goulsbra, SMBC	
	RG reminded the Board of the scheme and welcomed Network Space as the chosen Development Manager to bring forward the Eco Business Park.	Noted
	Stephen Barnes (SB) introduced Network Space and their experience in delivering small to medium sized industrial units across various locations and sectors. Broadheath Network Centre in Altrincham, Trafford is a local example.	
	MR asked for views on the sustainability elements.  SS stated that she would like to see the highest BREEAM rating if possible.  SB replied that sustainability is now a much more important aspect for industrial developments due to greater awareness and the cost of fuel.  SB commented that for most new industrial schemes the BREEAM rating achieved is Very Good as it is commercially difficult to achieve Excellent or Outstanding, especially on smaller units. For the Eco Business Park, Excellent it is regarded as the minimum with Outstanding the target.  PR concurred that Outstanding is very unusual in industrial schemes. PR also noted that the scheme would look at opportunities for sustainability across three areas, the build, the operation and the nature of the occupiers, as appropriate.  BB raised the need for tenants to match the aspirations of the scheme.  RB mentioned that BREEAM requires a lot of evidence and that	Noted
	some of the costs entailed in achieving a standard can be off-set by rents.  SB mentioned that a premium in rents is now starting to become evident for energy efficient premises. BREEAM is not the only standard but is easy for the market to understand.  PR reiterated the intention to use the Towns Fund to support the sustainability elements of the scheme.  RG mentioned that there would be some flexibility within the units depending on tenant requirements e.g. size of unit. RG also stated that the objective was to achieve a low carbon scheme and that may mean not achieving the top BREEAM rating, albeit this is a target. BREEAM is a measure of theoretical sustainability whereas there could well be other solutions and ratings available that are more effective and relevant for an in use low carbon scheme.  TF noted that the build materials will be an important part of making the scheme more sustainable over and above more common solutions such as local energy generation and efficiency.	Noted

	BB asked about arrangements for pre-market awareness. RG replied that once designs are more advanced over the next few months a brochure and collateral would be produced and would be shared with the Board at the appropriate time.	Action RG
	SB reminded the Board that design was at RIBA 1 stage and would be progressed to RIBA 3 to support a planning application later in the year. Market engagement would hold off until designs are more advanced. Project completion is expected in late 2025, with the Towns Fund monies spent earlier.	Noted
	CM mentioned the need for occupiers to link into the objectives of Stockport's Economic Plan.	
	MR asked what consideration will be given to local benefits and BB asked about social value.	
	SB replied that contractor procurement would be a competitive process, and as such local suppliers cannot be guaranteed, but there would be requirement around social value e.g. apprenticeships.	
	PR confirmed that there would be a Work & Skills Agreement with the contractor that would be tracked and audited and include social value aspects.	Noted
	TM asked about the impact of the scheme in generating jobs.  MF replied that job creation was one of the agreed funder outputs and would be tracked through the Town Fund Monitoring & Evaluation reporting process.	Noted
3B	Station Project Update: Gerard Kelly, SMBC	
	GK provided a scheme reminder and noted that the Planning Decision Notice will be issued once all conditions had been finalised.	Noted
	<ul> <li>GK updates included:</li> <li>Some further topographical surveys had been undertaken.</li> <li>Network Rail (NR) are currently reviewing the station design and aligning the design stages with rail industry processes.</li> <li>A review of the updated timetable released by Network Rail in Feb 23 is well advanced, this will assist with the operational</li> </ul>	Noted
	<ul> <li>modelling work.</li> <li>Land agreement with Circle Health on-going.</li> <li>A combine Manchester Task Force / Rail Industry Working Group is to be arranged once the modelling results are known.</li> </ul>	Action: GK / SE

	MR asked about the risk around design and potential for future dual tracking.	
	SE replied that NR design standards are rigorous but the station was a relatively simple design. In addition, there is passive design, using lightweight and modular platform sections, to allow for future track realignment if required.	Noted
	DM asked how significant the timetable data gaps were.	
	SE replied that locally the data changes are more significant. The current assumption is that the modelling remains positive.	Noted
	GP and CP – both confirmed that the outcome of the revised modelling was of key importance to DfT.	
	GK reprovided the high-level time line with construction of the station element programmed for 2024/25.	Noted
3C.	Active Travel Project Update: Michael Fisher, SMBC	
	<ul> <li>MF provided an overview of the scheme and progress on the three work packages:</li> <li>Package A: Cheadle Road and Shiers Drive 98% complete, some outstanding minor works.</li> <li>Package B: through the Park 97% complete and Oak Road 90% complete.</li> <li>Package C: Stockport Road and Queens Gardens 99% complete, some street lighting remaining. Stockport Road UTC crossing installation to be commissioned after Easter.</li> <li>MF confirmed that works would complete by late spring 2023 but the commissioning of lighting and signal crossings may take longer.</li> <li>DM asked about any feedback. MF replied that so far it had been positive.</li> <li>MF outlined options for a community based opening event of the route. Date to be confirmed, but potentially 10th June during National Bike Week. MF to confirm.</li> </ul>	Noted  Noted  Action: MF
4.	Accelerated Fund Project Update, Michael Fisher, SMBC	
	<u>Digital Information Point</u>	
	MF confirmed that following GPR surveys, an alternative location	

	MF informed the Board that the CVP have since indicated that they feel they do not have capacity to manage the information point.	Noted
	MR & SS both recognised the complications with delivering the project. PR confirmed that the Council were unable to take on operational responsibility.	
	MF to reconfirm CVP's position to the Board and to explore options for reuse of the remaining accelerated fund that was allocated to the CVP.	Action: MF
5.	AOB	
	<ul> <li>MF confirmed key actions as:</li> <li>Station: Confirm timetable study outcome</li> <li>Station: Arrange Industry Working Group in June / July</li> <li>Station: Progress land agreement</li> <li>Cycling &amp; Walking: confirm arrangements for the opening event</li> <li>Business Park: Update Board on design work</li> <li>DIP: review budget saving / other options</li> </ul>	Noted
	Next Towns Fund Board meeting via MS Teams Friday 2 <sup>nd</sup> June 2023 at <b>3.30pm</b>	

## Abbreviations:

AF – Accelerated Fund (Towns Fund)

BCR - Benefit Cost Ratio

BEIS - Department for Business, Energy & Industrial Strategy

BREEAM - Building Research Establishment's Environmental Assessment Method

CBRE - Property advisors

CVP - Cheadle Village Partnership

DIP – Digital Information Point

DJP - Diamond Jubilee Park

DfT – Department for Transport

DM - Development Manager

FBC - Full Business Case

Green Book – a five point business case tool used by Government

HMT – Her Majesties Treasury

HoT - Heads of Terms

LEP - Local Economic Partnership

DLUHC - Dept. for Levelling Up, Housing and Communities (formerly MHCLG)

MCL - Mid Cheshire Line (railway)

M&E Plan - Monitoring & Evaluation Plan

NR - Network Rail

NS - Network Space

NSF – New Station Fund (Round 3)

S / OBC – Strategic / Outline Business Case

PF - Pell Frischmann

RYR – Restoring Your Railway (Ideas Fund)

SMBC – Stockport Metropolitan Borough Council

SOBC - Strategic Outline Business Case

 $SWOT-Strengths,\,Weaknesses,\,Opportunities,\,Threats$ 

SuDS - Sustainable Drainage System

TfGM – Transport for Greater Manchester

TIP – Town Investment Plan

ToR - Terms of Reference
