Key Town Centre Access Plan Schemes - Improving transport and access for all

1. Travis Brow Link Road
New link road providing a direct route from the A6 (north of the M60) to M60 Junction 1.
Timescales: Winter 2017 - Summer 2019

2. Didsbury Road
New and improved junction at Brighton Road to provide access into the new Mercedes development, Brighton Road.
Timescales: Winter 2017 - Autumn 2018

3. M60 Junction 1
Widening Hollywood Way to improve traffic & increase capacity. Cycling & pedestrian improvements will also be made.
Timescales: Winter 2017 - Autumn 2018

4. King Street West
Creating improved routes for motorists, pedestrians and cyclists between the A6 south of the town centre and Junction 1 of the M60 (Pyramid).
Timescales (phase 2):
Winter 2017 - Autumn 2018

5. Astley Street Bridge
New bridge over the River Mersey at Astley Street, providing direct link for some buses between Heaton Lane and the bus station, removing traffic from the A6.
Timescales: Spring 2018 - Spring 2019

6. Stockport Exchange
Creation of high quality public realm & improved environment in and around Stockport Exchange.
Timescales:
Phase 2: Completed December 2016
Further stages taking place to 2020.

7. A6 Corridor Enhancements
Improvements to the A6 are planned that will provide better access as well as a more pleasant environment for all.

8. St Mary's Way
Widening of this important route between the A6 & the M60 allowing general traffic, pedestrians and cyclists to travel more easily into and around the town centre.
Timescales: Completed Spring 2018

9. Knightsbridge/Great Portwood St
Widening of the junction to improve its traffic capacity. Cycling, pedestrian and public realm improvements to be made.
Timescales: Winter 2017 - Autumn 2018

10. Redrock , Prince's St & Great Egerton St
Creating a bright and inviting environment for visitors & shoppers with links to the rest of the town centre. Plus highway improvements & new access to the Redrock car par from the A6.
Timescales: Completed Spring 2018
