AVC Withdrawal (retired and deferred members under age 72)

Withdrawing Funds From Your AVC Account

This information is for retired and deferred members who have not yet turned age 72. If you are turning age 72 in the current year, see the *AVC Income option withdrawal (members age 72 and older)* form. You are a retired member if you are receiving an OMERS pension. If you are an active member, see the *Withdrawing funds from your AVC account (active members)* form.

Annual withdrawal window opens March 1 and closes April 30
You can withdraw funds from your AVC account during the annual withdrawal window.

How to withdraw funds

There are two ways to withdraw funds from your AVC account:

- 1. The most convenient way is through the myOMERS secure member access site. Your AVC account information is provided, and for non-locked-in funds, the withdrawal can be completed online; or
 - Withdrawing non-locked-in funds from your AVC account (retired and deferred members)
 - Withdrawing locked-in funds from your AVC account (retired and deferred members)

The Annual Statement of Your AVC Account has your account information, including the balance of locked-in and/or non-locked-in funds. Annual statements are posted on myOMERS early in March.

- 2. Complete a paper withdrawal form and return it to OMERS. There are two withdrawal forms:
- Have you recently retired or terminated employment?

You may withdraw all or some of the funds in your AVC account within the first six months after retirement or upon leaving your OMERS employer. When a member retires or leaves their OMERS employer, OMERS provides a personalized package that includes AVC withdrawal forms. If you recently retired or terminated employment, please submit your request to withdraw funds through myOMERS or use the forms provided in your personalized package.

Are you turning age 71 this year?

Please use a **paper** form if you are turning age 71 this year. You cannot initiate your withdrawal using myOMERS after the year you turn age 70.

- Rules and restrictions
 - Current year contributions

Funds transferred to an AVC account in the current year cannot be withdrawn until the next year.

\$500 minimum

The minimum amount you may withdraw from your account is \$500. If your account balance is less than \$500, you must withdraw your entire account balance (excluding any current year contributions).

Non-locked-in versus locked-in funds

Funds transferred into an AVC account from another registered retirement savings vehicle keep their original non-locked-in or locked-in status. In other words, if the retirement savings are locked-in when the funds are transferred to an AVC account, they remain locked-in when the funds are transferred out.

Non-locked-in funds

Non-locked-in funds can remain in your AVC account past the year you turn age 71 through the AVC Income Option. Visit **www.omers.com/avcs** for more information.

Locked-in funds

Locked-in funds can only be transferred to a locked-in retirement account (LIRA), life income fund (LIF) or registered pension plan (RPP), or to an insurance company to purchase an annuity. Locked-in funds must be transferred out of your AVC account by October 31st of the year you turn age 71.

Full withdrawals

If you are withdrawing your entire account balance and you have no current year contributions, the applicable rate of return, less investment management expenses, will be applied to your AVC account balance at the withdrawal date.

Note: Only members who are resident in Canada can make automatic contributions or fund transfers to an AVC account. If you become a non-resident of Canada, your funds can stay in your AVC account but no further funds can be added.
