

Implementation of the new e-access system will follow an iterative approach, transitioning functionality over piece-by-piece to provide you with the highest value features as soon as possible. Although this means you will be working in two systems for a while, it will be a great opportunity for you to get used to the new look and feel.

See the below quick reference guide to help clarify which system you should be using!

## Legacy e-access portal

## New e-access portal
