AVC Withdrawals (Active Members)

Withdrawing Funds From Your AVC Account (Active Members)

This information is for active members. Active members include those currently contributing to the OMERS Primary Pension Plan (OMERS Plan), on a disability waiver, on a leave of absence, and members who are employed beyond 35 years of credited service who have stopped contributing prior to 2021. If you have retired or left your OMERS employer and want to withdraw funds from your AVC account, see the *Withdrawing funds from your AVC account (retired and deferred members)* form.

Annual withdrawal window opens March 1 and closes April 30

You can withdraw funds from your AVC account during the annual withdrawal window.

How to withdraw funds from your AVC account

- 1. If you are making a withdrawal before the year you turn age 71, the most convenient way is through the myOMERS secure member site (www.myomers.com); or
- 2. Complete this paper withdrawal form and return it to OMERS. There are two withdrawal forms one for non-locked in funds and one for locked-in funds.
- 3. If you are turning age 71 this year, use this paper withdrawal form. You cannot initiate your withdrawal using myOMERS after the year you turn 70.

The Annual Statement of your AVC Account has your account information, including the balance of locked-in and/or non-locked-in funds. Annual statements are posted on myOMERS early in March. A paper copy is also sent by mail unless you've signed up for e-only delivery through myOMERS.

Rules and restrictions

- While you're an active member, withdrawals are restricted as follows:
 - **Partial withdrawal** You can withdraw up to 20% of the balance of your AVC account as at December 31 of the prior year; subject to a minimum of \$500.
 - **Full withdrawal** If you make a partial withdrawal in each of four consecutive years, the 20% limit does not apply in the fifth consecutive year. In the fifth year, you can withdraw up to your entire account balance (excluding current year contributions).

NOTE: If you're an active member in the year you turn 71, you can withdraw 100% of your account balance in the March 1 to April 30 withdrawal window.

Current year contributions

Contributions made to an AVC account during the year of withdrawal cannot be withdrawn until the March/April withdrawal window in the following year. This includes contributions made by pre-authorized debit from your bank account and transfers from a registered retirement vehicle.

Example.

Funds transferred to an AVC account in February 2017 can be withdrawn in 2018, but not during the 2017 withdrawal window.

\$500 minimum

The minimum amount you may withdraw from your account is \$500. If your account balance is less than \$500, you must withdraw your entire account balance (excluding any current year contributions).

Non-locked-in versus locked-in funds

Funds transferred from a non-locked-in (e.g., RRSP) or locked-in (e.g., LIRA) registered retirement savings account do not change their form while in an AVC account. In other words, if the retirement savings are locked-in when the funds are transferred to an AVC account, they remain locked-in when the funds are transferred out.

Locked-in funds

Locked-in funds can only be transferred to a locked-in retirement account (LIRA), life income fund (LIF) or registered pension plan (RPP), or to an insurance company to purchase an annuity.

Full withdrawals

If you are withdrawing your entire account balance and you have no current year contributions, the applicable rate of return, less investment management expenses, will be applied to your AVC account balance at the withdrawal date.

Questions

For information about your options when withdrawing funds from your AVC account, see the booklet *Consider the AVC Option* and the Terms of Participation on **www.omers.com**, or contact OMERS - our specially trained staff can answer your questions.

Note: Only members who are resident in Canada can make automatic contributions or fund transfers to an AVC account. If you become a non-resident of Canada, your funds can stay in your AVC account but no further funds can be added.
