

OMERS Administration Corporation

BOARD AND DIRECTOR COMPETENCIES

It has been an ongoing practice of the AC Board to regularly review its competency framework. The current framework as approved appears below and broadly describes the personal qualities, experience, skills and knowledge our Board requires to oversee our business. The framework changes from time to time as our business and strategy change – including as expressed in the OMERS Strategic Plan. The framework reflects what the AC Board believes it requires to give effective stewardship and oversight over the AC global strategy.

AC Board Competency Framework

The AC Board is responsible for pension services and administration, investments, plan valuation and supporting SC in fulfilling its duties.

Each Director must possess all of the following attributes:

- Independence, integrity and sound judgment
- Long-term, strategic outlook with a stewardship mindset
- Governance knowledge and experience at a complex organization
- Knowledge of business issues and financial matters
- Demonstrated ability to operate effectively and collaboratively as part of a diverse team

Each Director must be willing to:

- Understand and exercise their fiduciary responsibilities
- Attend and contribute to AC Board and Committee meetings
- Devote the time and effort necessary to be an effective Board member
- Demonstrate commitment to the DB Model and Jointly Sponsored Pension Plans
- Obtain a recognized Director designation and undertake continuous education to maintain governance skills and competencies, including general knowledge of pensions and the pension industry

The AC Board as a whole must satisfy the thirteen competencies below; each Director is expected to satisfy not less than two specific competencies and will not have more than five specific competencies recognized¹

¹ Unless otherwise noted, in order to meet a competency a Director must satisfy one of the two listed requirements, as applicable (or equivalent in the discretion of the Governance Committee).

1) Senior Leadership²

- Leadership experience as a C-Suite or similar level leader of a complex organization
- Senior leadership experience at a union or similar organization involving multiple employers and employee groups
- Leadership experience as a C-Suite or similar level leader of a large municipal sector³ employer

2) People

- Led a talent program in a complex organization
- Designed and led a complex executive or investment compensation program

3) Pension Funding

- Actuarial accreditation or equivalent experience with complex retirement or insurance systems
- Expertise in developing or advising on sustainability of DB pension plans or equivalent

4) Pensions – Administration

- Led plan or trustee administration program
- Developed or advised on pension policy, regulation or design of DB pension plans

5) Government/Public Policy

- Senior role in government
- Expertise in public policy, municipal finance or the workings of government

6) Public Market Investing

- Led global public markets portfolio including equities, fixed income and/or derivatives
- Developed or designed a sophisticated capital markets investment strategy or led an investment banking business

7) Private Markets Investing

- Led a private markets investment program such as infrastructure, private equity, structured credit or real estate
- Expertise in global investment dynamics in areas such as legal, tax or finance

8) Financial & Operational Controls

- Led or advised on internal control, reporting and/or valuation systems in a complex organization in accordance with financial accounting standards
- Possesses an advanced accounting or finance designation (e.g., CPA, CFA) or meets the SEC definition⁴ set out below

² Fulfilling this competency would require at least three directors collectively satisfying each bullet point.

³ Municipal sector means the broader municipal sector as represented by the Sponsors of the OMERS Plans.

⁴ At least one Director on the Audit & Risk Committee must be an “audit committee financial expert” as defined by the SEC. The SEC defines the term as an individual who the board determines to possess all of the following attribute:

- An understanding of financial statements and generally accepted accounting principles (GAAP)
- An ability to assess the general application of GAAP in connection with accounting for estimates, accruals and reserves

9) Regulatory Affairs

- Experience as a regulator, or as a senior leader in a complex regulated organization
- Expertise, or a recognized designation or accreditation, in a regulatory field

10) Stakeholder Relations

- Led communications strategy with stakeholders of a complex organization
- Demonstrated ability to facilitate healthy relations in a diverse, multi-stakeholder environment

11) Technology, Innovation & AI

- Led or advised a complex organization on the development or implementation of new technologies, including artificial intelligence, advanced analytics or data-driven technologies
- Developed or advised on the use of artificial intelligence or other emerging technologies in pursuit of new strategies, business opportunities or operational effectiveness

12) Risk

- Led, designed or advised on an advanced risk management program
- Managed overall risk and return dynamics in a complex investment and/or pension environment

13) Environmental, Social, Governance

- Led or advised on the implementation of a sustainable investing program at a complex organization
- Expertise, or a recognized designation or accreditation, in climate change or broader sustainable investing
