

# Top 10 Fastest Recovering Holiday Destinations

Using the Skytra Ticketing Database containing 83%\* of worldwide purchased flight tickets, we are able to identify which holiday destinations have been the least affected by COVID-19 for bookings for August this year. The data represents flights booked from the UK to European destinations only.

Skytra, a 100% Airbus company, is offering new risk management and business intelligence solutions to the air travel industry leveraging its unique ticketing data base.

The ranking below is derived from the comparison of air travel ticket bookings for August 2020 compared to bookings for the same holiday period last year, pre-COVID 19.

**1** TURKEY

**2** SPAIN

**3** GREECE

**4** NETHERLANDS

**5** ITALY

**6** FRANCE

**7** SWITZERLAND

**8** GERMANY

**9** NORWAY

**10** PORTUGAL

List of countries by percentage of passengers compared to this time last year.  
Turkey: 38 %, Spain: 26 %, Greece: 25 %, Netherland: 25 %, Italy: 23 %, France: 20 %, Switzerland: 20 %, Germany: 18 %, Norway: 11 %, Portugal: 10 %.

\* In ticket value
