

NORDTER has organized trauma and emergency radiology courses for over 20 years. Our focus is on sharing knowledge of basic and advanced trauma and emergency imaging. Join us in Oslo, Norway, for another exciting 3.5 days program of state-of-the-art emergency imaging with our international faculty!

We have invited excellent and highly dedicated speakers from the Nordic countries, Europe and the United States to cover a variety of emergency and trauma radiology topics for the radiologist on call. For the first time in NORDTER's history, we will offer lectures in both traumatic and non-traumatic emergency imaging.

Welcome to the 21st Nordic Course in Emergency and Trauma Radiology from Monday to Thursday, June 2nd to 5th, 2025.

On behalf of NORDTER

Johannes Godt

Johann Baptist Dormagen

Course Director

SPECIAL FOCUS SESSION

AI IN EMERGENCY RADIOLOGY

PRE-COURSE TRAUMA AND EMERGENCY RADIOLOGY
WORKSHOP ON SUNDAY, JUNE 1ST

21st Nordic Course in Emergency and Trauma Radiology serves as an introductory and a refresher course in traumatic and non-traumatic emergency imaging. Interactive Quiz case sessions will summarize the lectures and further enhance learning. The preliminary course program and faculty listing will be available on our website nordictraumarad.com as the registration opens in December 2024.

Pre-course Trauma and Emergency Radiology Workshop on Sunday, June 1st: Workshop seats are limited to 40 persons and available only for Nordic Course participants. Participants have to bring their own laptops to the workshop.
