Holiday Trends 2021

Three reasons to advertise on Snapchat this holiday season:

1. More customers are shopping on their phones.

As more and more retailers take their focus from desktop-driven to mobile optimized shopping experiences, transactions made on mobile phones can only increase from here.

2. Snapchatters are feeling hopeful, happy and excited.

The economy is expected to see its fastest growth in over two decades during the back-half of 2021.¹ This year, the shopping season will be bigger, with wish lists far longer than last year.

3. Shoppers are seeking meaningful connections.

When it comes to the customer journey, mobile devices are powerful tools to turn inspiration into purchase. Creating engaging shopping and celebratory experiences will drive lasting and impactful results all season long.
