Important Information about Retirement Reform Changes known as “T-Day” and the “Two-Pot System”

- **“T-Day”** came into effect on 1 March 2021. This means that from 1 March 2021, your member share consisted of two components (or pots): a vested member share and a non-vested member share. The vested member share reflects your fund credit as at 28 February 2021 (plus interest thereon). The non-vested member share reflects all contributions from 1 March 2021 to 31 August 2024 (plus interest and growth thereon).
- The **“Two-Pot System”** came into effect on 1 September 2024. This means that from 1 September 2024, your member share will consist of different components (or pots): a vested pot (fund credit as at 31 August 2024), an emergency savings pot (seed amount and one third of future savings) and a retirement pot (two thirds of future savings), if any, depending on whether seeded capital and transfers (or pots) were received from another approved Fund when the two-pot system was implemented.
 - **Vested pot (if any):** Your accumulated fund credit (vested and non-vested member share) up to 31 August 2024 (plus interest thereon) will be allocated to this pot as well as any transfers received from the vested pot in another approved Fund, as elected upon transfer. You can make one once-off pre-retirement withdrawal at any date before the retirement date from this pot. Thereafter you will not be allowed to make another once-off withdrawal before the retirement date, or disability or death.
 - **Emergency savings pot (if any):** Ten percent (10%) of your vested pot on 31 August 2024, up to a maximum of R30 000, will be allocated to your emergency savings pot as seed capital, except for members of a Provident Preservation Fund who were 55 and older on 1 March 2021 and who remained members of the same fund. You can make one withdrawal from this pot in a tax year, subject to a minimum withdrawal amount of R2 000 in addition to the once-off pre-retirement withdrawal from your vested pot.
 - **Retirement pot (if any):** Any transfer received from the retirement pot, the vested pot and/or the emergency savings pot from another approved Fund where the Two-Pot system was implemented will be allocated to this pot, as elected upon transfer, except for members of a Provident Preservation Fund who were 55 and older on 1 March 2021 and who remained members of the same fund. No withdrawals can be made from this pot and the total balance of this pot must be used to buy a pension at retirement.
- **Withdrawal options:**
 - **Vested pot (if any):** You can make one partial once-off withdrawal at any date before the retirement date from this pot. On full withdrawal this amount may be preserved in the Fund, transferred to another approved Fund, or taken in cash. If taken in cash, the amount will be taxed according to SARS withdrawal tax tables.
 - **Emergency savings pot (if any):** This amount must be preserved, unless (1) it is less than R2 000 or (2) you have not made an emergency savings pot withdrawal in the current tax year, in which case it may be taken in cash. If taken in cash, this amount will be taxed according to your marginal tax rate.
 - **Retirement pot (if any):** This amount must be preserved in the Fund or transferred to another approved Fund, i.e., no pre-retirement withdrawal is allowed.
- **At Retirement:**
 - **Vested pot (if any):** You may either take the vested amount as cash (it will be taxed according to SARS retirement tax tables), or use it to buy an annuity. You may take a maximum of one-third of your non-vested amount as cash. If two-thirds of your non-vested member share plus your entire retirement pot is R165 000 or less, you may take the entire amount in cash (i.e., both the non-vested amount and the retirement pot).
 - **Emergency savings pot (if any):** You can take this amount as cash (it will be taxed according to SARS retirement tax tables), or you can add it to your retirement pot to buy an annuity.
 - **Retirement pot (if any):** The total balance in your retirement pot must be used to buy a pension at retirement. If two-thirds of your non-vested member share in your vested pot plus your retirement pot is R165 000 or less, you may take the entire amount in cash (i.e., both the non-vested amount and the retirement pot).

Important Note:

Please refer to your member benefit statement for the values of your member share in the different pots.
