„We change the way people eat forever.“

About HelloFresh SE

HelloFresh SE is a global integrated food solutions group and the world's leading meal kit company. The HelloFresh group consists of eight brands that provide customers with high quality food and recipes for different meal occasions. HelloFresh is radically rethinking the traditional food supply chain by creating a data driven on-demand system that enables growing at scale and allows delivering food more sustainably. In addition to the meal kit business, which is offered to customers through the group's brands HelloFresh, Green Chef, Every Plate and Chefs Plate, the company is active in the ready-to-eat space through brands Factor and Youfoodz. Recently HelloFresh entered the meat and seafood subscription market with Good Chop and the pet food market with premium pet food brand The Pets Table. The Mission: Change the way people eat – forever. This mission goes beyond just changing the way customers shop for and prepare food. It means providing better access to nutritious, fresh ingredients in a more sustainable way.
