HIGHBALLS

Discover the exciting variety of highballs and let yourself be seduced by their incomparable flavour - a highlight that you should not miss!

Highballs have been considered the go-to choice since the 1880s when it comes to a refreshing drink. Always invigorating, fizzy and cooling, the highball is a quick thirst-quencher. The highball was discovered by chance when a guest ordered ice and sparkling water, whereupon the ice floated to the top like a ball – hence a high ball. On board, you can now discover a colourful selection of our versatile highballs – treat yourself to a refreshing drink!
Cheers.

ICE: *Fill the glass with ice, to keep the highball cool from start to finish.*

SPIRIT: *The basis for every highball and thus sets the flavour course.*

SWEET & SOUR: *Sweet balances the spirit elegantly and the right acidity refreshes - so all the flavours come into their own.*

MIXER: *Bubbles, bubbles, bubbles - they create refreshing moments and revitalise the palate.*

GARNISH: *The garnish visually prolongs the flavour and makes the highball an indulgence even before the first sip.*
