Dulux Commercial

Dulux partners with architects, interior designers, builders and engineers to deliver first-class construction outcomes. Our respected range of premium products and unmatched technical expertise allows us to provide end-to-end support to the design and construction sector.

Dulux helps you design and build with confidence. Created to provide specifiers with the tools, information and guidance they need to realise their

projects' potential, it lets you access all Dulux product solutions in one convenient place.

Dulux is your one-stop-shop for sourcing technical advice, physical swatches and samples, and assistance with product specification or problem solving. Work with us to find the best solution for your project and achieve exceptional results.

Healthcare

The healthcare sector is complex and evolving. Medical construction projects must adhere to strict regulations and standards while providing hard-wearing products that support rigorous cleaning programs.

Healthcare facilities include hospitals, medical clinics (dentists, pharmacists, podiatrists, etc.), radiology practices and operating theatres. Each type of facility has unique needs and challenges; however, common project imperatives include minimal disruption and downtime, and the requirement for products to meet clinical cleaning regimes and strict hygiene standards.

At Dulux, we partner with hospitals, clinics and other healthcare providers to deliver construction, refurbishment and upgrade projects. Our extensive sector expertise allows us to specify hard-wearing, fit for purpose solutions that support healthcare providers today and into the future.

Our Solutions

Dulux has supported specifiers and contractors in the healthcare industry for more than 100 years. Our products and systems provide sector-specific construction and maintenance solutions such as trafficable concrete floors, antibacterial products, metal structures and waterproofing.

Dulux products are designed to meet the highest quality standards. Our team's extensive knowledge allows them to provide valued support with specification writing and problem-solving for healthcare facilities.

The health sector is undergoing a substantial shift as our ageing population, technological advancements, and evolving regulatory requirements place rising pressure on existing services. Our experience allows our specification team to recommend and provide tailored solutions for all healthcare environments, from hospitals to day surgeries, GP clinics, aged care facilities and other healthcare settings.

Durable products that withstand thorough cleaning

The products specified for healthcare environments must be able to withstand rigorous cleaning requirements. Walls and floors are subject to high foot traffic and frequent knocks, scrapes and scuffs, calling for hard-wearing coatings that are washable and easy to maintain, and minimise the need for regular repainting or recoating.

Safety and regulatory requirements may also mandate the use of specialist products, including non-slip finishes.

Indoor air quality

The Dulux range includes several low-VOC, low-odour options for when air quality is an important specification requirement.

Our industry-leading low-VOC innovations include Dulux enviro2™, Wash&Wear® and the Decorama tinter system.

Antibacterial protection

A selection of Dulux products have antibacterial properties, supporting healthcare facilities to keep their surfaces as sterile as possible while providing hard-wearing protection. Specific paint ranges also prevent mildew and mould growth.

Dulux Professional SteriGaurd Durable Acrylic Low Sheen

Dulux Professional Steriguard range with high chemical & scrub resistance helps to keep facility walls looking clean and fresh for longer, compared to standard water based products and will ensure that costs are kept down, given less need for re-paint. It contains Bio-Pruf Technology to protect against mould and mildew, keep surfaces clean and maintain good indoor air quality. The low odour formula ensures minimal downtime and service disruption.

Dulux Wash&Wear + PLUS Anti-Bac Low Sheen

Dulux Wash&Wear +PLUS Anti-Bac Low Sheen is a washable paint range developed to prevent the growth of bacteria and mould and reduce asthma and allergy symptoms. Containing 101 Barrier Technology, it creates a hard-wearing finish that allows most marks, scuffs and stains to be wiped away with a wet cloth.

The role of colour

Colour plays a vital role in the healthcare sector, with patients at the forefront of colour considerations – such as in supporting visually impaired patients to navigate and access various areas of the facility. Colour schemes can also be used to leverage colour psychology, support wayfinding, and delineate different areas.

Various building regulations require critical surfaces to be highlighted in colours and shades with an appropriate contrast or light reflectance value (LRV).

Waterproof solutions

Professional waterproofing solutions are crucial in both underground and above ground structures to meet building code requirements and provide building longevity.

Reliable protection

As many healthcare facilities function 24/7, long-lasting products and solutions are essential to reduce maintenance disruptions, minimise cracking caused by movement and withstand harsh weather conditions.

Example Areas and Products

Walls, Ceiling, Trim

Australia's leading range of high performance interior and exterior paints and decorative finishes. Dulux World of Colour Series has over 4,800 colours.

- Dulux Wash & Wear
- Dulux Weathershield
- Dulux Professional
- Porters Paints
- Dulux Professional Steriguard

Metal Protection

Providing high performance protection for metal substrates including Aluminium and Steel used in structural, architectural and functional applications.

- Dulux Durebild STE
- Dulux Weathermax HBR
- Dulux Fluoraset
- Dulux Duratec

Texture Render Facades

A range of solutions for tilt up concrete slabs and exterior facades for long lasting protection and decoration.

- Acratex AcraTilt
- Acratex AcraShield
- Fosroc Dekguard
- Emer-Clad

Anti Graffiti

A range of coating and powder solutions to protect painted and bare masonry surfaces against graffiti, and graffiti removal agents.

- Dulux Surfaceshield FP
- Dulux Surfaceshield HD
- Dulux Armourspray

Sealants & Adhesives

A range of commercial grade sealants and adhesives for the construction industry.

- Admil
- Fosroc
- Emer

Waterproofing

A comprehensive range of waterproofing solutions including sheet, torch and liquid-applied membranes, cementitious systems and waterstops.

- Fosroc Proofex Engage
- Fosroc Nitoproof
- Fosroc Polyurea
- Emer-Proof

Timber Surfaces

Intergrain timber finishes have a range of stains, varnishes, clears and oils to enhance and protect timber in commercial environments.

- Intergrain Ultradeck Timber Oil
- Intergrain Ultradeck Timber Stain
- Intergrain Universal Timber Oil
- Intergrain Enviropro Endure 2 pack

Concrete Floors

A wide range of solutions to provide protection and decoration to concrete floors, from walk ways to floors that are used for cars and other heavy machinery.

- Dulux Luxafloor
- Fosroc Nitoflor & Cemtop
- Dulux Avista Flooring

Roadmarking

A range of road marking coatings formulated for fast dry and high visibility suitable for concrete and bitumen surfaces.

- Dulux Roadmaster A1
- Dulux Roadmaster WB3
- Dulux Avista Resurfacing

Hardware and Cabinetry

Lincoln Sentry is a leading trade distributor of cabinet and architectural hardware into the building industry.

- Blum
- HEXFIX
- Finista
- Oliveri

Garage Doors and Secure Access Systems

B&D offers a range of high quality heavy duty doors and shutters for commercial and industrial applications.

- Commercial sectional overhead doors
- Steel & Aluminium Roller Shutters
- Access Control

At Dulux, we leverage our deep expertise to support architects, interior designers, builders and engineers to design and build with confidence.

“We’re here to help our partners to imagine and create better places and spaces to live, work and play.”

Peter Wood
Dulux Commercial
Business Manager

More than 100 years of experience and an unrelenting focus on quality and innovation allows us to back the experts with premium products, industry-leading service and trusted end-to-end advice.

Quality

Our products are formulated using advanced chemistry and science to deliver highly technical construction solutions that exceed expectations.

Reliability

Our solutions offer proven and reliable performance, giving you the confidence of straightforward application and the high level of protection required.

Transformation

Our coating solutions offer colours, patterns, textures and finishes that transform surfaces while providing long-lasting durability.

Expertise

Our responsive team provides specialist product support, technical assistance and expert problem solving when and how you need it.
