FIND YOUR DREAM COLOUR SCHEME

Picking an exterior colour scheme for your home can be both exciting and daunting. We don't switch out our exterior paint colours as often as we repaint the inside of our homes, so it's important that you choose something you love and are happy to live with for years to come.

This is why Dulux has put together a guide to help you choose an exterior colour scheme and the right products to transform the outside of your home.

Here you will find some of our most popular exterior colours and colour schemes, designed to work not only on your home exterior, but also on other areas around your home like fences, garden sheds, garages and concrete and paving.

COLOUR TIP: If you need more personalised colour help, you can book an in-home consultation with a qualified Dulux Colour Designer. To book visit dulux.co.nz/colouredesigner or call 0800 800 424

LIGHT AND BRIGHT

A striking white exterior will keep your home looking fresh, modern, and elegant for years to come. Inviting, bright and open, an all-white house helps to create a natural canvas that allows other design elements, such as landscaping and furniture to sing.

PAINTING TIP

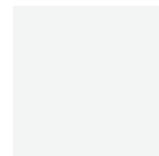

Nothing beats a great paint job, especially one you've done yourself. Preparing before painting is key to an excellent exterior finish. For tips on how to prepare your house for painting and the best way to paint your bricks or weatherboards, scan the QR Code.

CLASSIC

Create a sense of harmony and balance with elegant soft greys and neutrals. These refined hues are subtle and versatile — ideal for creating a timeless and understated look. These schemes can be used to enhance a more traditional style of home or help you achieve a more classic look on a new-build.

COLOUR TIP

If you are looking for a traditional colour scheme for a heritage home, scan the QR code above to view the Dulux® Colours of New Zealand® Heritage Collection.

MODERN

Be bold and make a statement with greys, charcoals, and near-blacks. These colours look both contemporary and striking. A dark colour scheme can completely modernise your home, make it stand out on your street or in a bush setting, and even help the building to retreat into its surroundings. Bold greys and near-blacks are very popular now and work well when paired with natural materials such as wood or brick.

COLOUR TIP

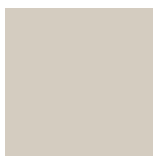

One thing to keep in mind when choosing exterior house colours, is that colours can look up to 30% lighter on the outside of your home. Consider going a shade or two darker to get the look you want.

PAINTING YOUR HOUSE

DULUX WEATHERSHIELD®

Dulux Weathershield® has been specially designed to provide a tough, hard-wearing finish that provides protection from all weather conditions. Formulated with MaxiFlex® Technology to expand and contract with the surface, Dulux guarantees Weathershield® won't peel, flake or blister for as long as you live in your home. Available in a range of different sheen levels including Matt, Low Sheen, Semi Gloss and Gloss.

DULUX WEATHERSHIELD® COLOURGUARD

(USE WHEN PAINTING DARK COLOURS)

Dulux Weathershield® ColourGuard has been specially formulated for superior colour fade resistance. It contains heavy duty reflective pigments, making the colour last up to twice as long as traditional premium exterior paints. It is tintable to a range of dark Dulux® Colours of New Zealand® and COLORSTEEL® colours. Dulux Weathershield® ColourGuard provides a tough, hardwearing finish that provides protection from all weather conditions.

DULUX ROOF & TRIM™

Dulux Roof & Trim™ is a high opacity, self-priming, high performance 100% acrylic paint that is designed to provide maximum durability on roofs and trim. It was specifically formulated for the safe collection of drinking water and is resistant to colour fading, mould, dirt and stains. Dulux Roof & Trim™ provides long-lasting protection against New Zealand's harsh weather conditions. It's available in a selection of prepacked colours, Dulux® Colours of New Zealand® and COLORSTEEL® colours.
