FORECAST**  
— 2024 —

Dulux Solstice is an inviting palette with sun loving warmth, designed to evoke a comforting, familiar and welcoming feeling.

Every Colour Forecast is significant as colour, design and key influences continue to evolve. This year's palettes step deeper into the mid-tone hues to evoke feelings of warmth, nostalgia and self-expression.

Heavily influenced by the nostalgia of the postmodern era, with a particular emphasis on the 70's, the Dulux Muse palette is a celebration of the free spirited styles of the past.

Dulux Journey takes inspiration from our travels and cultural differences, highlighting rich mid-tone hues. At its core, Journey celebrates the art of storytelling, where mythical iconography and cherished folk traditions find their rightful place, adding layers of colour and depth.

# Solstice

Designed to transform your home into a soothing retreat, the Solstice palette features rich and organic hues that cocoon us and help to evoke feelings of strength and joy. Solstice is influenced by the pared back Scandinavian design style with the added warmth of colours inspired by the Mediterranean and desert landscapes. Solstice can create uplifting spaces that are the perfect backdrop to socialise and entertain.

# JOURNEY

A palette celebrating the art of storytelling adding layers of depth and colour to your space. Experiences from our travels and diverse cultural highlights influence rich mid-tone colours with a maximalist and eclectic feel in our homes. Similar to the diverse tapestry of our own lives, the Journey palette brings together lavish colours along with heavily patterned fabrics, time worn rugs, wicker chairs, multi-coloured trinkets, and vintage finds awaiting a fresh paint colour for their next journey.

# Muse

Muse strikes the perfect balance between the expressive colours featured in postmodern interiors and the emerging modern hues in contemporary design. The Muse palette is a colourful array of hues creating a distinctly modern interior that has been fused with nostalgic design references reminiscent of the 60's to the 80's, in addition to the textures and glamour from the 70's.
