

## Addendum

### Information note 2017

---

**1.1** It has come to our attention that our response to question 14 has been omitted from both response part 1 and part 2.

**1.2** We apologise for any inconvenience this might have caused.

## **2 Arcades (AGC and FEC)**

**2.1** Operators within the arcades sector are currently required to report details of their (maximum and minimum) seasonal employees.

**2.2** The consultation outlined our intention to remove this requirement as we have never needed to undertake detailed analysis of this data nor is it routinely published as part of our industry statistics.

### Question

Q14. Do you agree with our proposal to remove the seasonal employee question from the AGC and FEC forms?

**2.3** We received four responses to this question, all but one were in agreement with the removal of the reporting requirement.

**2.4** One of the responses stated their preference to see this maintained as it informs the seasonal sector's employment trend. However, they agreed that this was of no regulatory value and in conclusion, were supportive of removal.

### Our position

**2.5** The support from the industry to remove with the requirement to report the number of seasonal employees reflects our view.

**2.6** Based on the feedback we have received, we will proceed with the removal of this question from the regulatory returns system. This will take effect from April 2018.

August 2017
