(a) For the period from 1 February 2009 to 31 March 2012:

28% of any part of the difference that lies between 0% and 10% of the TPBIT; plus

50% of any part of the difference that lies between 10% and 20% of the TPBIT; plus

80% of any part of the difference that is in excess of 20% of the TPBIT.

(b) For the period from 1 April 2012 to 31 January 2024:

Formula for calculating the Basic Primary Contribution

The Basic Primary Contribution for each Financial Year and for each Game Type j shall be the following amount in pounds:

$$\frac{(100-R_{1,j}^1)}{100} N_{1,j} + \frac{(100-R_{2,j}^1)}{100} N_{2,j} \text{ and so on to } \frac{(100-R_{x,j}^1)}{100} N_{x,j}$$

where:

$R_{i,j}^1$ is the retention rate shown in Table 1 for tranche i and Game Type j ; and

$N_{i,j}$ is the net value of National Lottery tickets sold for Game Type j falling within tranche i . It is calculated as follows:

$$\begin{aligned} \text{if } N_j < L_{i,j}^1, & \text{ then } N_{i,j} = 0 \\ \text{if } L_{i,j}^1 \leq N_j \leq U_{i,j}^1, & \text{ then } N_{i,j} = N_j - L_{i,j}^1 \\ \text{if } N_j > U_{i,j}^1, & \text{ then } N_{i,j} = U_{i,j}^1 - L_{i,j}^1 \\ \text{if } N_j > L_{x,j}^1, & \text{ then } N_{x,j} = N_j - L_{x,j}^1 \end{aligned}$$

where:

x is the highest tranche number for that game type;

$L_{i,j}^1$ is the lower tranche boundary for tranche i and Game Type j as shown in Table 1 and adjusted in accordance with paragraph 3;

$U_{i,j}^1$ is the upper tranche boundary for tranche i and Game Type j as shown in Table 1 and adjusted in accordance with paragraph 3; and

N_j is the net value of National Lottery tickets sold for Game Type j . It is calculated as follows:

$$N_j = (0.88S_j - P_j - R_j - G_j)$$

where:

S_j is the aggregate value of National Lottery tickets sold for Game Type j ;

P_j is the Prize Payments for Game Type j ;

R_j is

for Retailer Distributed Draw-Based Games and Scratchcard Games:

- (a) the value of Retailer Commission that is payable by the Licensee in respect of WS_j and

G_j is the Gross Sales Retention for Game Type j . It is calculated as follows:

$$G_j = \frac{R_{1,j}^2}{100} S_{1,j} + \frac{R_{2,j}^2}{100} S_{2,j} \text{ and so on to } \frac{R_{x,j}^2}{100} S_{x,j}$$

where:

$R_{i,j}^2$ is the retention rate shown in Table 2 for tranche i and Game Type j ; and

$S_{i,j}$ is the aggregate value of National Lottery tickets sold for Game Type j falling within tranche i . It is calculated as follows:

$$\begin{aligned} \text{if } S_j < L_{i,j}^2, \text{ then } & S_{i,j} = 0 \\ \text{if } L_{i,j}^2 \leq S_j \leq U_{i,j}^2, \text{ then } & S_{i,j} = S_j - L_{i,j}^2 \\ \text{if } S_j > U_{i,j}^2, \text{ then } & S_{i,j} = U_{i,j}^2 - L_{i,j}^2 \\ \text{if } S_j > L_{x,j}^2, \text{ then } & S_{x,j} = S_j - L_{x,j}^2 \end{aligned}$$

where:

x is the highest tranche number for that game type;

$L_{i,j}^2$ is the lower tranche boundary for tranche i and Game Type j as shown in Table 2 and adjusted in accordance with paragraph 3;

This amount is then adjusted as follows:
- ii) deduct any Profit Alignment Contribution included in the NLDF sum in i) above;
- iii) deduct the amount of financing due from NLDF under the Condition 23 marketing investment⁶⁴⁷ for that Financial Year calculated in accordance with the Marketing Investment Key Procedure designated under Condition 5.12A and as reported pursuant to Schedule 10 Part 2;

Schedule 10

Condition 11

Part 4⁶⁴⁸

Marketing investment from NLDF and Profit Alignment Contribution

Profit Alignment Contribution

- 1.1 The intention of the Profit Alignment Contribution is to provide (in the circumstances detailed) an additional payment to the Secretary of State. Nothing in this Schedule 10 Part 4 does or is intended to (adversely) impact Primary Contributions or Secondary Contributions (or indeed, any other payment to the Secretary of State).
- 1.2 The Licensee shall, in respect of Financial Years 2018/19 and 2019/20 only, provide the Commission with a statement (in accordance with Schedule 8 Part 4) setting out the Licensee's Provisional Profit After Tax and the NLDF Measure.
- 1.3 In the event that the NLDF Measure in either Financial Year 2018/19 or 2019/20 is equal to or lower than £1,646.3m, and the Licensee's Provisional Profit After Tax for the same Financial Year is higher than £68.4m, then the Licensee's Profit After Tax for the same Financial Year, which it can retain, will be capped at a maximum of £68.4m. The excess over £68.4m will require a Profit Alignment Contribution for the relevant Financial Year. The Licensee will be required to account for the Profit Alignment Contribution by way of a pre-tax adjustment to its payment to NLDF (as performed by the Licensee in respect of its Secondary Contributions obligation).
- 1.4 The Licensee shall treat the Profit Alignment Contribution as tax deductible. If the Profit Alignment Contribution is tax deductible, and the NLDF Measure in either Financial Year 2018/19 or 2019/20 is:
 - a) equal to or lower than £1,646.3m; and
 - b) the Licensee's Provisional Profit After Tax for the same year is higher than £68.4mthen the Profit Alignment Contribution will be calculated as the difference between the Provisional Profit After Tax and £68.4m, divided by (1 minus the Effective Tax Rate).
- 1.5 In the event that the Profit Alignment Contribution is, for any reason, not tax deductible and the NLDF Measure in either Financial Year 2018/19 or 2019/20 is:
 - c) equal to or lower than £1,646.3m; and
 - d) the Licensee's Provisional Profit After Tax for that Financial Year is higher than £68.4mthen the Profit Alignment Contribution shall be calculated as the difference between the Provisional Profit After Tax and £68.4m.
- 1.6 A worked example of how Profit Alignment Contribution is calculated is as follows:
 - a) Provisional Profit After Tax is £70.0m, the NLDF Measure is £1,630m, and the Effective Tax Rate is 19%.

⁶⁴⁸ A Final Notice of Investment Opportunity under Condition 23 was approved on 6 September 2018. Schedule 10 Part 4 sets out agreed requirements which apply for the investment period 1 April 2018 to 31 March 2020. These are in addition to Schedule 10 Part 1, Part 2 and Part 3 provisions apart from Part 1 paragraphs 1.1a) and 1.1b) which are disapplied for Financial Years 2018/19 and 2019/20.

- b) As the Provisional Profit After Tax is higher than £68.4m and the NLDF Measure is lower than £1,646.3m, the sum of £1.6m (i.e. £70m minus £68.4m) will be used to calculate Profit Alignment Contribution.
- c) If the Profit Alignment Contribution is not tax deductible, the Profit Alignment Contribution will be £1.6m.
- d) If the Profit Alignment Contribution is tax deductible, as is expected, the Profit Alignment Contribution will be £2.0m (i.e. £1.6m / (1 – 19%)).

1.6 The Profit Alignment Contribution shall be paid to the Secretary of State in accordance with Schedule 8 Part 3 paragraph 11.1.

Fixed levels of marketing

1.7 For the Financial Years 2018/19 and 2019/20 the Licensee will commit to marketing expenditure in amounts at least equal to the amounts detailed below:

- a) Financial Year 2018/19 – the sum of £83.5m (inclusive of VAT, to the extent that it is not recoverable). Such sum shall comprise of: £73.1m minimum marketing expenditure; a contribution of £0.4m marketing investment to support Lotto and EuroMillions; and an additional investment of £10m for a television show associated with any Constituent Lottery.
- b) Financial Year 2019/20 – the sum of £85.2m (inclusive of VAT, to the extent that it is not recoverable). Such sum shall comprise of: £74.8m minimum marketing expenditure; a contribution of £0.4m to marketing investment to support Lotto and EuroMillions; and an additional investment of £10m for a television show associated with any Constituent Lottery.

1.8 In a restricted number of instances, these fixed levels of marketing may be revisited in accordance with the Marketing Investment Key Procedure designated under Condition 5.12A.

1.9 In the event that the Licensee's marketing expenditure is less than £83.5m in Financial Year 2018/19 and £85.2m in Financial Year 2019/20, any shortfall will be paid to the Secretary of State in accordance with Schedule 10 Part 1 paragraph 1.2.

1.10 The minimum marketing expenditure levels of £73.1m in Financial Year 2018/19 and £74.8m in Financial Year 2019/20 are based on an assumed aggregate value of sales of £6,833.5m in Financial Year 2018/19 and £6,994.7m in Financial Year 2019/20. In the event that the actual aggregate value of sales in either Financial Year is higher than the figures set out in this paragraph, the additional aggregate sales value above the assumed value will be multiplied by 1.07% and this amount will be spent by the Licensee as additional minimum marketing expenditure by the end of Financial Year 2019/20 or offset against the spend carried forward 31 March 2018 under Schedule 10, Part 1, Paragraph 1.1(b)⁶⁴⁹. Otherwise, the shortfall will be paid over to the Secretary of State in accordance with Schedule 10 Part 1 paragraph 1.2.

1.11 For the avoidance of doubt, paragraph 1.10 above is intended to ensure that the special provisions detailed in this Schedule 10 Part 4 do not inadvertently result in a lower minimum marketing expenditure than would have applied had the Tables in Schedule 10 Part 1 been applicable in the Financial Years 2018/19 and 2019/20.

*Any Other Capital Expenditure which may, for the avoidance of doubt, include any additional investment expenditure which complies with Schedule 15 paragraph 1.2 and paragraph 1.4(a)(v)⁸ on other line items above the minimum amount specified in Table 1.1 (a) in that same Financial Year.

1.2 For the purpose of this Schedule, investment expenditure (for all line items in Table 1.1(a), except for “Operating Expenditure”) is defined as:

- For assets acquired under leases: The value of the total contractual commitment, excluding interest, entered into by Camelot for acquiring or obtaining access to the asset.
- For assets not acquired under leases: The directly attributable costs incurred in acquiring the asset, as recognised in Camelot’s audited financial statements.
- The costs of any internally generated capital asset and any directly attributable costs incurred in bringing the asset into operation.

1.3⁹ (a) If the cumulative investment expenditure incurred by the Licensee in respect of the line items Roll-out, Technology, Portfolio Development and Retail Infrastructure is less than the minimum investment expenditure by the end of the relevant financial year shown (calculated in accordance with paragraph 1.1 above), the Licensee shall pay to the Secretary of State an amount equal to the difference on the Final Payment Day in respect of that Financial Year¹⁰.

(b) In the event that the minimum investment expenditures for the line items Other Capital Expenditure and Operating Expenditure incurred by the Licensee in a Financial Year, are less than the required amount for that Financial Year (as set out in Table 1.1(a) above), the Licensee shall only pay the balance to the Secretary of State if the Total line item amount (as set out in Table 1.1(a) above), is not incurred by the end of the Relevant financial year. Such payment shall be paid on or before the Final Payment Day for that Financial Year. A worked example is provided below:

- i) Other Capital Expenditure is required to be £8.5m in the Financial Year 2018/19 and £1.5m in the Financial Year 2019/20. However, £8.3m is spent in practice in Financial Year 2018/19 and £1.5m is spent in Financial Year 2019/20.
- ii) The Total investment expenditure for Other Capital Expenditure is £10.0m to be spent by the end of the Relevant financial year, which is 2019/20.
- iii) If the outstanding £0.2m is not spent by the end of 2019/20, this would need to be paid to the Secretary of State on or before the Final Payment Date Day for that Financial Year.

1.4¹¹ For the avoidance of doubt, investment expenditure referred to in this Schedule:

(a) shall only be allowable if it relates to:

- (i) Roll-out: expenditure that is necessary to make available 8,000 additional Retail Outlets (including for the avoidance of doubt PPOS) pursuant to the Licensee Investment approved by the Commission in February 2012
- (ii) PPOS: costs associated with the provision and installation of Permanent Point of Sale equipment (including media screens and other devices) to any Retail Outlet between 2015/16 and 2016/17

⁸ Licence varied by consent on 3 January 2019

⁹ Licence varied by consent on 6 September 2019

¹⁰ Waiver of clause 1.3 (now 1.3(a)) was given on 27 February 2017 allowing an extension of the deadline to have executed minimum investment in PPOS equipment (defined in clause 1.1) to 30 June 2017.

¹¹ Licence varied by consent on 6 September 2019

- (iii) Technology: IT infrastructure costs incurred as a result of the provision of servers and additional capacity and terminal decommissioning
- (iv) Portfolio Development: all expenditure, other than that referred to in Schedule 10 and 1.4 (a)(iii) above, incurred on channel and/or game development activities (including but not limited to planned changes to the Technology Solution) necessary for the running of the National Lottery between 2018/19 and 2023/24¹²
- (v) Other Capital Expenditure¹³: all items of investment expenditure (to support strategic initiatives and the ongoing operation of the National Lottery which will benefit the National Lottery during the Third Licence Period, including initiatives to generate a return to good causes and initiatives to enhance the integrity of the National Lottery) that are referred to in Clause 1.2 above, other than those referred to in Schedule 10, Licensee spend required under the Retail Infrastructure Investment¹⁴ or those required under any other Licence Condition. In the event that the Licensee exceeds the minimum levels of expenditure detailed above in Table 1.1(a) for the line items for either Technology and/or Portfolio Development during the Financial Years 2018/19, 2019/20, 2020/21 and 2021/22 then the Other Capital Expenditure figure for that financial year shall be deemed to include the excess expenditure on these line items to the extent it meets the Other Capital Expenditure requirements under this paragraph. For avoidance of doubt Other Capital Expenditure will not include any expenditure required under Condition 5.9 Maintenance of Licensee Assets. Expenditure classified as Other Capital Expenditure will be audited to ensure compliance with the requirements of Schedule 15.¹⁵
- (vi) Retail infrastructure: In addition to the £0.3m spend required in table 1.1(a) a £14.1m joint investment to support the expansion of retail infrastructure National Lottery into Discounters and into self-checkout was approved in February 2019. The joint investment is implemented under the Retailer infrastructure Investment Procedure designated as Key under Condition 5.12A. The Key Procedure defines eligible Retail Infrastructure spend and requires the Licensee to contribute 7.1% of the eligible spend up to a maximum of £1m .
- (vii) Operating Expenditure: investment in retailer advocacy, primarily centred on salary related costs for Licensee staff (e.g. retail sales executives), along with other items including but not limited to recruitment costs for these staff, software licences and point of sale to the extent that any such costs can be demonstrated to the Commission that they are incremental and directly relate to retailer advocacy (and not otherwise included within Schedule 10 Part 3). The Sales Teams may require a Third Party, such as Shepper, to be deployed to maintain operational levels, these costs shall too be included as part of the retailer advocacy commitment¹⁶.

(b) shall only be allowable if it is capable of being capitalised in accordance with International Financial Reporting Standards
