

About Encompass Technologies

From maker to market, Encompass Technologies is revolutionizing how technology supports the modern beverage industry. The Encompass Digital Platform connects hundreds of thousands of global wine and total beverage companies spanning producers, distributors, and retailers with their vintrace and Encompass solutions.

The entire Encompass network is igniting the modern era of supply chain collaboration and rewiring the meaning of growth and efficiency for customers.

With more than 20 years of experience providing beverage management software solutions, Encompass Technologies has built a reputation for moving the industry forward and fundamentally changing how beverages are made and brought to market.
