## **Ricoh Aficio Color 5560V**

Color Digital Imaging System
The New Benchmark for High-Speed
Color Communications

## Ricoh Aficio Color 5560V

## MultifunctionalFlexibleManageable

# Color with Quality, Speed and the Ultimate Simplicity

The Ricoh Aficio Color 5560V is designed for productivity, usability and superior image quality, with an array of color calibration and registration technologies to ensure sharp, consistent results.

- Speeds of up to 55 ppm full color and 60 ppm black & white combine with true 600 dpi scanning and printing so that every page always looks its best.
- Automatic Color Selection (ACS) determines which pages to reproduce in color or black & white, even within mixed sets.
- The Color Usage Restriction function assures you're only paying for the color you use by controlling the color usage activity of others.
- Oil-less toner formula delivers a rich color gamut and hardcopies with just a touch of gloss.
- Replacing toner is as simple as dropping the toner bag into the respective hopper.
- User-adjustable paper drawers automatically detect the loaded paper size, making additional programming unnecessary.

# Multifunction Means More than Copying and Printing

If information sharing and archiving are as critical to your business as hardcopy document production, utilize the Ricoh Aficio Color 5560V's full-color scanning.

- TWAIN scanning lets you digitize hardcopy originals for incorporation into new documents.
- The 100-Sheet Automatic Reversing Document Feeder quickly captures one- or two-sided originals at speeds up to 60 ipm (images per minute) for monochrome documents and 45 ipm for color pages.
- The scanner detects the size of each original, while Automatic Paper Selection (APS) chooses the proper copy paper size automatically.
- Control the level of detail, file size and file format so users can open, view and/or print documents exactly as they were created.

# **Diverse Document Management and Distribution Capabilities**

The Ricoh Aficio Color 5560V comes complete with a full complement of standard utilities for storing, organizing, retrieving and distributing your documents and data.

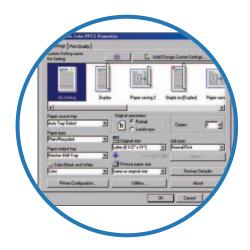

- Versatile color Scan-to functions allow for efficient document storage and distribution to hundreds of e-mail addresses or networked File/Folder/FTP destinations in a single operation.
- Document Server function scans, stores and organizes up to 3,000 documents with the power of 1,384MB RAM and a 4 x 80GB Hard Disk Drive array.
- DeskTopBinder combines and publishes files from various applications as a single, cohesive document.

The Ricoh Aficio Color 5560V control panel features an intuitive design with clearly labeled hard keys and easy-to-understand icons. This same ease of use is available through the Ricoh RPCS (Refined Print Command Stream) print driver.

Choose from several high-capacity Finishers with multi-position stapling and/or hole punching, and even produce saddle-stitched, folded booklets in-house.

Access and manage your document production system with just a few clicks of the mouse to optimize your printing productivity with Ricoh RPCS (Refined Print Command Stream).

## **CopyPrintScanManage**

# **Streamlined Design and Enhanced Control Improve Productivity**

The easier office equipment is to use and control, the more productive your employees will be. That's why Ricoh has designed the Aficio Color 5560V to be easy to operate, easy to manage, and easy to get the desired results, every time.

- Enormous 7,400-sheet maximum paper supply means less interruptions and less maintenance.
- Full-format capabilities let you output full-bleed spreads of facing pages on 12" x 18".
- Several high-capacity Finishers offer multi-position stapling and/or hole punching, and even let you produce duplexed saddle-stitched booklets.
- Tab Accessory produces color tabs to separate sections for that professionally published look in binders, handbooks and manuals.
- LDAP Authentication ensures only authorized users with active usernames and passwords can access the system, while advanced data encryption ensure security and integrity.
- HDD DataOverwriteSecurity System (DOSS) automatically overwrites information using methods that conform to National Security Agency (NSA) standards.
- Web Image Monitor tracks system use and status in real-time letting you check or change printer settings, view job histories and device status, monitor toner and paper levels, reset print jobs or reboot the printer—all without ever leaving your desk.
- Control panel features an intuitive design with clearly labeled hard keys and easy-to-understand icons.

# **Versatile Networking Support for Any Environment**

The Ricoh Aficio Color 5560V is compatible with all of the most popular computing environments, making it a great solution for the wide range of jobs produced by general business users every day.

- The 10/100BaseTX Ethernet interface allows every user to share the power of high-speed color printing, while the USB 2.0 port enables peer-to-peer device access and control.
- Optional IEEE 802.11b or Bluetooth wireless interface meets your special connectivity needs.
- Wireless connectivity simplifies printing for visitors and gives you the benefits of networked printing without a LAN connection.
- Auto Switching technology means a seamless adjustment to data streams generated by Windows®, Macintosh® or UNIX clients in mixed-network environments.
- Standard support for the Ricoh RPCS and PCL 5c/6 page description languages and drivers, with optional genuine Adobe® PostScript® 3™.

## Your Environmental Partner

Ricoh continues its long-standing commitment to developing office solutions with environmentally friendly and superior energy- and supply-saving features, without compromising productivity, including:

- Quick Start-Up (QSU) Technology
- Power-Saving Sleep Mode
- Duplex and Combine Copy Modes
- Toner Recycling
- Low Noise Levels
- Minimal Ozone Emissions
- Restriction of Hazardous Substances (RoHS) Compliant
