# Ricoh FAX4430 Series

Advanced document communication tools for superior workflow. Large workgroups perform hundreds—if not thousands—of individual document management tasks every day. To maintain high productivity in these demanding, fast-paced environments, you need easy-to-use systems that deliver exceptional efficiency and productivity. Like the RICOH® FAX4430L, which provides quick fax transmission speed and convenience copying for stand-alone applications. Or the network-ready Ricoh FAX4430NF, which comes standard with a full range of advanced fax features, plus copying and scanning.

# ProductiveReliableIntuitive

## Unmatched efficiency

**With the Ricoh FAX4430 Series, end-users can access a single, powerful fax system that can handle a complete array of essential document communication tasks with speed, ease and convenience.**

- Ensure quick transmission for all fax documents—up to 30 pages-per-minute<sup>1</sup>.
- Double your transmission capacity with an optional second Super G3 line. It operates independently, so you can use both lines for transmission or dedicate one line for transmission and a second for reception.
- Scan important fax documents, then walk away with the original instead of leaving the document in the tray.
- Maximize productivity and minimize interruptions in high-usage environments with a total paper capacity of 1,350 sheets (with all options).
- Reduce paper consumption with duplex fax reception and duplex scanning (except for color Scan-to-Email).

<sup>1</sup> Approximately 2 seconds-per-page at 33.6 Kbps with JBIG is dependent upon optimal line quality; and customer performance may vary by location.

## High-performance faxing

**The Ricoh FAX4430NF comes equipped with advanced capabilities you can use to significantly reduce or even eliminate the typical costs of global document distribution.**

- Send faxes at no cost with Internet faxing (T.37), which works the same way as Scan-to-Email. In this case, the e-mail address is a similarly equipped Internet fax.
- Large companies with multiple networked locations can deliver documents in real time—at no charge—with IP faxing (T.38). This zero-cost method sends directly to the IP address of the receiving fax. Transmission is instantaneous.
- Companies that have implemented Voice over IP (VoIP) technology can incorporate the Ricoh FAX4430NF in their communications architecture without connecting the system to analog phone lines.
- Enhance your productivity right from the desktop with LAN faxing. This capability allows you to send faxes to any other G3 fax system without leaving your PC. The LAN Fax Cover Sheet Editor even creates customized cover sheets.
- Send any hardcopy document as a PDF or JPEG—whether full-color or black & white—with standard Scan-to-Email.

Color Scan-to-Email offers a secure, paperless way to deliver virtually any scanned document—including color photos, brochures, maps and plans.

Accommodate lengthy, multi-page documents (up to 47.2" long) with the 70-sheet Automatic Document Feeder.

Deliver any document to the Ricoh FAX4430NF for transmission, right from your PC, with the LAN faxing feature.

# FaxCopyScan

## Superior productivity

Both the Ricoh FAX4430L and the Ricoh FAX4430NF are engineered to help you operate as productively as possible. From the systems' outstanding overall durability to their specific sets of features, these systems have the time-saving tools you need to streamline workflow.

- Conveniently create digital black & white copies with 15 ppm speed.
- Expect crisp, clean 600 x 600 dpi image quality for all digital copies, incoming fax documents and printed pages.
- Eliminate the need to organize sets manually with automatic collation for all output (fax, copy, print).
- Count on fast, high-resolution scanning for multi-page documents—up to 1.3 seconds-per-page for black & white or 4.0 seconds-per-page for color—with the 70-sheet Automatic Document Feeder.

## User-friendly design

No matter what a fax system can do, it will not help your workgroup improve efficiency if it is difficult to use. That is why the Ricoh FAX4430 Series incorporates a straightforward design for simple, intuitive operation.

- Find exactly what you need on the easy-to-use control panel, including a familiar QWERTY keyboard and 22-character x 2-line backlit LCD for checking system status and settings.
- Assign complex key sequences to one of 10 programmable User Function Keys for one-touch operation.
- Send fax documents to your most frequent recipients with one-touch convenience using 90 Quick Dials and 200 Speed Dials.
- Scan color originals at full resolution or with a halftone screen using the Color Scan/Halftone Key (standard on Ricoh FAX4430NF).
- Select the appropriate level of detail for fax transmission with the High-Resolution Scan Key.

## Easy network integration

When connected to the network, the Ricoh FAX4430NF is easy to install and simple to manage. So your IT department can add it to the network with confidence.

- Ensure error-free configuration with industry-standard Ethernet connectivity, while the WebImageMonitor feature supports remote administration.
- Control access to all transmission capabilities—including Scan-to-Email, faxing, IP faxing and LAN faxing—with Server Domain Authentication.
- Streamline network integration with Dynamic Host Configuration Protocol (DHCP).

## Your Environmental Partner

Ricoh continues its long-standing commitment to developing office solutions with environmentally friendly and superior energy- and supply-saving features, without compromising productivity, including:

- Power-Saving Sleep Mode
- Duplex and Combine Copy Modes
- Minimal Ozone Emissions
- Restriction of Hazardous Substances Compliant (RoHS)

# CompactAffordableFlexible

## Designed for Lasting Quality and Convenience

### 70-sheet Automatic Document Feeder (standard)
