TOUCHLESS KITCHEN FAUCET

**KOHLER**. Faucets. Live Bold.

THE BOLD LOOK  
OF **KOHLER**®

The Response<sup>™</sup> technology of the Sensate<sup>™</sup> touchless kitchen faucet responds to your every move, leaving you to wonder how you ever prepped, cleaned and cooked without it.

**Sensate kitchen faucet**

frees your hands so that you can flow through your kitchen tasks, like getting down and dirty with food prep, without pausing to turn the faucet handle on and off. And you don't have to worry about spreading the mess, and germs, to the rest of the kitchen.

The state-of-the-art sensor responds in 20 milliseconds. Simply wave your hand or pot or pan through the sensor window for reliable on/off operation every time.

**AUTO SHUTOFF**

Sensate™ features an automatic shutoff safeguard.

Sensate™  
features  
DockNetik™,  
our new  
magnetic  
docking  
system that  
secures the  
sprayhead in  
place.

### Response.. Technology

Delivers convenient, reliable and hygienic control with a swipe of your hand.

### DockNetik..

Our new docking system features magnets positioned in the spout to securely lock the sprayhead in place.

#### **BEAUTY & BRAWN**

Sleek design meets a workhorse mentality to help you flow more cleanly and easily through your kitchen.

#### **ProMotion® Technology**

The braided nylon hose ensures it won't kink or tangle, and the swiveling ball joint provides smooth operation with minimal effort.

#### **Two-Function Sprayhead**

Spray and stream functions help to make light work of kitchen tasks.

#### **Easy Temperature Control**

Adjust the water temperature with the handle while the faucet is in use.

### Response™ Technology

Delivers convenient and hygienic control – freeing your hands to tackle kitchen tasks while reducing the threat of cross-contamination.

### DockNetik™

Our new magnetic docking system secures the sprayhead in place.

### LED

Lets you know it's operational and ready to go.

### Battery-Free

AC power means no batteries to replace.

### Manual Override

The faucet can be operated manually in the event of a power loss.

### 300° Spout Rotation

The faucet can be swivelled up to 300° to cover the whole sink.

The sensor window begins at the underside of the spout and extends six inches towards the base.

Wave your hand through the beam to activate the water stream.
