Strayt™ touchless cold only basin faucet in polished chrome (K-72867IN-ND-CP)

KOHLER[®] COMMERCIAL FAUCET ADVANTAGE

To help you specify the best Kohler[®] faucets for your commercial or hospitality enterprise, we've outlined some of the key features that make Kohler[®] best in class.

KINESIS[™] TECHNOLOGY

In traditional IR sensors, the sensor range can be affected by the environmental distortions such as color or the texture of the object. Kinesis[™] technology with concealed sensor allows for a clean aesthetic and provides extraordinarily accurate and reliable actuation in varying installation environments. Additionally, Kinesis[™] sensor technology offers on-demand detection for maximum water savings.

INSIGHT[™] TECHNOLOGY

Improved over traditional infrared sensors that rely on fixed settings and may misread environments, Insight[™] technology features an adaptive infrared sensor that has the ability to analyse the surrounding area once installed. After recording these details, Insight[™] is able to calibrate the sensor to filter false triggers and optimize the faucet's operation.

MANUAL CONFIGURATIONS

In addition to Touchless[™] faucets for commercial applications, we offer manual faucets in a variety of configurations, including wall mount, widespread, centerset and single-handle, to accommodate any number of bathroom designs and functionality needs.

The ideal cleaning technique is to always blot dry any water from metal surfaces. Allowing water to evaporate on metal will form water deposits. It is important to use a dabbing action to dry metal, not an abrasive or rubbing action. Cleaning with a damp sponge and buff drying should keep your mixer looking beautiful.

* All recommended fixture plumbing accessories, including but not limited to, grip rails, trim kits, drains: Duostrainer® sink strainers and soap/lotion dispensers are warranted to the original purchaser to be free of defects in material and workmanship for one year from date of purchase.

** Never use cleaners containing abrasive cleansers, ammonia, bleach, acids, waxes, alcohol, solvents or other products not recommended for chrome. This will void the warranty.
