VIVE

The ART of MOTION

Made of Ballet

Vive's design process started with the thought of deconstructing the archetypical elements of a faucet and reimagining them as fluid human movements of ballet.

VIVE

The ART of MOTION

Vive is a celebratory design for the contemporary bathroom that harmonizes beauty and functionality with charm and grace. Inspired by elegant human movements and gestures from dance, Vive's fluid shape strikes a human like pose that seems to be in perpetual motion

PLAYFUL ACTUATION

Vive's handle has a playfulness which momentarily interrupts the sculptural form on actuation but engages the user to settle it back to restore the fluidity of the dance like pose

UNIQUE MONOLITHIC WALL-MOUNT

Structural sanctity(symmetry) is preserved through a unique monobloc design giving a seamless usage experience to both right & left handed users.

Leading Spout Reach

With a reach of 117mm between the spout and the body of the faucet. The single lever faucet ensures the water is well in reach such that even at a low pressure the users hand doesn't hit the vessel wall, thereby avoiding any cross contamination & helps in maintaining hygiene
