THE MORNING STAR

Did you know our first dairy farmers built a real boat to bring the dairy they loved to Portland? That boat was called the Morning Star and without it, we wouldn't be where we are today. Now that you know a little history, let's have a little fun: decorate the sails and count how many birds you see.

How many birds
did you count?

MAZE

Help the Morning Star find its way through the winding river to a treasure chest full of delicious Tillamook treats.
