STRONG BEGINNINGS LEAD TO BRIGHT FUTURES

For over 110 years, Tillamook County Creamery Association (TCCA) has stood behind the honest values of about 80 dairy farmer-owners. It's from them we've learned passion can't be faked, hard work can't be outsmarted, and real food is worth fighting for. And your customers will taste our level of commitment in every bite.

Every day we aim to connect farmers and food lovers through better-made dairy products. This means continually doing better by our farmer-owners, our employees, our communities, and our consumers. Always.

See our full story at [Tillamook.com](https://tillamook.com)

You expect our products to be delicious. You also expect them to be made the right way. Our six Stewardship Commitments not only ground us, they guide us as we grow.

We believe that caring for cows and farms, for people and products, for our community and the environment it's not just about smart business, it's about staying true to our values.

TCCA is now a Certified B Corporation® (B Corp™), joining a global movement of people using business as a force for good. We meet the highest verified standards of social and environmental performance, transparency and accountability. Being good stewards of cows and farms, of people and products, of our communities and the environment lies at the heart of everything we do here at TCCA. Becoming a Certified B Corp does not change the way we do business, but rather it serves as a strong, rigorous validation of our commitment to Stewardship.

OUR DEDICATION TO FOODSERVICE

The cooks on your line, your head chefs and your front-of-house staff — your team is the heartbeat of your restaurant and we know how meaningful they are. At TCCA we feel the same way about you and your team, and you bring meaning to what we do and help make us better. From our world-class cheese judge to our two foodservice testing operations to robust R&D, insights and marketing teams, we're all dedicated to creating incredible cheese and helpful tools that help grow your business.

As a farmer-owned co-op, we have incredibly high standards for our milk quality. Then with the same care you apply to every dish on your menu, we invest time and effort into every step of the process for crafting our cheese and ice cream.

But it doesn't stop there. Making the best possible product for you to put on your menu isn't just about dairy products that taste good, it's about what we do for the greater good. To put truly good dairy products on your menu, we focus on six areas of stewardship that contribute to the well-being of the ecosystem, our community, our customers, our employees and our dairy farms and their cows. These Stewardship Commitments not only ground us, they guide us as we grow so we can continue to offer you products that taste as good for your guests as you feel serving them.

Every day we are joined by those who value great-tasting cheese made the right way — from our robust social community to the operators cooking with us who have helped Tillamook cheese menu mentions grow 6.5% in the past year and 13.7% in the past four.* As your dedicated foodservice partner, we're here to support your business and bring delicious, craveable food to those you serve.

TILLAMOOK CHEESE

For delicious cheese, TCCA uses high-quality milk.

Milk from cows not treated with rBST*

- ▶ All TCCA farmers & partners have pledged not to use rBST and have been doing so since 2005

Low somatic cell count

- ▶ A main indicator of milk quality
- ▶ The lower the count, the greater the wholistic cow health from diet to barn cleanliness

Low bacteria count

- ▶ An indicator of milk quality. Low bacteria allows us to heat shock, not pasteurize, the milk
- ▶ Low bacteria comes from clean animals, farms and equipment

To turn milk into great-tasting cheese, TCCA uses unique and simple ingredients

- ▶ Our cheese is made from four ingredients: cultured milk, salt, enzymes and annatto (for yellow cheddar)
- ▶ Our special blend of cultures contributes to our award-winning cheddar flavor
- ▶ The signature nutty notes of our Swiss cheese come from a unique Swiss cheese culture

THE RESULT IS A PORTFOLIO OF AWARD-WINNING CHEESE

Aged with time, not shortcuts

Waiting longer to bring our cheddar to market may not be the most profitable way. But to us, letting its taste mature naturally is the right way.

We naturally age all our cheddar cheese, from 60 days for our medium cheddar to our 2012 Maker's Reserve extra sharp white cheddar, and our patience is rewarded with high-quality cheese.

By taking the time to let our cheddars develop naturally, we get a clean, rich and delicious taste. After all, there's no substitute for patience.

None of our cheddar gets packaged until our cheese experts say it's 100% ready. Our sensory team, also known as the "taste buds of TCCA," carefully evaluates cheddar from every single batch made, ensuring all cheddar that leaves our factories will taste consistently delicious every time.

* All farmers who supply milk for TCCA products pledge not to use artificial growth hormones. The FDA has stated that no significant difference has been shown between milk derived from rBST treated and non-rBST treated cows.

TCCA ARTISAN CHEESEMAKING PROCESS

PREMIUM MILK

Farmers and supplier partners are paid a premium to deliver high-quality milk with low somatic cell count and high butterfat.

PROPRIETARY CULTURES

We select our special blend of cultures and grow them on-site at The Creamery to deliver our signature texture and flavor of our cheddar.

NATURALLY AGED

All our cheddars are left to age naturally. We believe nothing can replace flavor that is developed over time.

HEAT SHOCKED

Heat shocking vs. pasteurizing our milk keeps important bacteria alive that contribute to flavor and texture of our cheddar.

40 LB. BLOCKS

Using 40 lb. blocks vs. 640 lb. allows for greater consistency of aging, moisture migration and quality control.

MEDIUM CHEDDAR

Our medium cheddar cheese varieties are aged for at least 60 days to develop a full, bold flavor and smooth, creamy texture. Expect flavor that is nutty with rounded creamy, buttery notes. It melts gracefully to create crave-worthy cheese sauce, mac and cheese, and pizza.

SHARP CHEDDAR

Our sharp cheddar spends nine months aging and developing its signature bite reminiscent of bright lemon pith. It brings the robust sharpness you expect but is balanced by notes of warm salted hazelnut with a subtle grassy finish. In culinary creations, its full flavor is best paired with other strong flavors like meat, wine and smoked fish.

EXTRA SHARP CHEDDAR

The sharpest of the sharp, this cheese is aged for over 15 months to create its unmistakable and unmatched flavor that hints at warm salted hazelnuts and milky custard. The crumbly texture and intense flavor of extra sharp cheddar make it perfect for shaving on top of pasta and salad or nestled onto a cheeseboard next to a sweet chutney.

Our cheeses are left to naturally age a minimum of 60 days up to 8 years, without additives, which enhances the clean, rich, craveable flavor for a better taste experience.

EXTRA SHARP WHITE CHEDDAR

Using only pure ingredients, we begin crafting each batch two years in advance. As this cheddar ages, it sheds moisture and gains flavor — with each passing day it grows sharper and more robust. The result is a creamy yet crumbly cheese that adds intense and earthy flavor when grated atop entrees or added to charcuterie boards.

Cheese is all about the culture, and in this case we looked to the very origin of cheddar for inspiration. By blending English style cheddar cultures with our very own, we created an oh so creamy, slightly sweet, slightly nutty nod to the motherland that is 100% Tillamook Cheese.

MAKER'S RESERVE

We've been making cheese masterfully for more than a century and we've set a higher standard from day one. It starts with an outstanding recipe featuring high-quality milk and proprietary cultures. Add in some cheesemaking savvy and time, and the result is our signature flavor profile graded by TCCA tasting experts to ensure only the best batches of each vintage make the cut. What you get will have been worth the wait.

2020: Smooth, rich texture with notes of woodsy, wild mushrooms and crispy dark bread.

2019: Creamy textures and flavors of custard and sweet cream balanced with subtle salty, umami notes.

2018: Bold, nutty cheddar with sweet malt, barley and grassy notes

2017: Rustic with bright acidity wrapped up in a rich, custardy finish

2013: Sweet cream and rich buttery brioche balanced with savory notes of toasted nuts.

TILLAMOOK ICE CREAM

Simply better flavor, no secret ingredients necessary

With more cream and less air in every bite, Tillamook Ice Cream is luxuriously smooth and creamy – a texture your customers will love. Our ice cream mixes have no preservatives, synthetic colors, artificial hormones or flavors, and is made with milk from cows not treated with rBST*, for an unmatched, superior product with robust, full-bodied, rich flavor your guests are sure to notice.

See our complete line of dairy products online at tillamook.com

Each three-gallon container promises to be full of spectacular flavor, with more butterfat and less air whipped in to ensure full, consistent flavor from the first scoop to the last. We spend time crafting a wide range of flavors to satisfy every taste — from classic vanillas to fruits and berries, deep chocolate and every sweet mix-in in between.

* All farmers who supply milk for Tillamook products pledge not to use artificial growth hormones. The FDA has stated that no significant difference has been shown between milk derived from rBST treated and non-rBST treated cows.

BANANA SPLIT

It's the sundae you love, but turned inside out, right into your bowl. And because we make it with extra cream you get an extra smooth and rich ice cream. Now that's a split you'll definitely want to do.

BUTTER PECAN

We took our rich and buttery ice cream, adorned it with a velvety caramel ribbon, and topped it off with roasted pecans. But that's not all we did. We added extra cream — and that means an especially rich ice cream with better taste.

CHOCOLATE

Our time-honored chocolate ice cream has taken a lot of licks over the years, and here's why. We don't whip extra air into any of our cartons — instead, we add more cream for a delightfully creamy taste.

CHOCOLATE CHIP

We made it the way we do all of our ice cream — starting with high-quality milk and adding in extra cream to fill up each carton, not extra air. Then we mix in vanilla and bits of chocolaty chips. It's a taste and a crunch you'll remember from cones of yesteryear.

CHOCOLATE PEANUT BUTTER

Chocolate and peanut butter — who even remembers how they taste separately? They're like two halves that add up to way more than a whole. That's why we combined our rich chocolate ice cream with a creamy peanut buttery ripple. They were destined to be as one.

FRENCH VANILLA

Our French vanilla is the real deal for more than one reason. Like all of our ice cream, we make it with high-quality milk and loads of cream - but our French vanilla is a custard, made with extra eggs for an even richer and creamier mouthfeel. That means it's even richer and creamier.
