

FLICK FOOTBALL

HOW TO MAKE

HOW TO PLAY

1. Have each player sit at opposite ends of the table. Player one will begin the game by holding the football on its side and flicking it to the other end of the table, where player two will be holding their hands in the shape of an "L" and a backwards "L" to form goalposts.
2. A touchdown is scored when the paper football flies in between the other player's goalposts and hangs slightly over the opponent's side of the table without falling off.
3. Players can continue to alternate flicking the football until they reach desired winning score.
