

Tillamook

FOOTBALL SQUARES

TEAM _____

TEAM _____

SET-UP

1. Write each team name on one of the TEAM lines.
2. Next, write in numbers 0-9 in the gray boxes on both sides. These numbers will represent the last digits of each team's final score for each quarter.
3. Complete your game board by having your cheese loving guests fill in their initials in the white boxes.
4. Playing for money? Have guests purchase their squares for any amount the host chooses.

PLAY

Cheer your team on until the end of each quarter when it's time to pick a winner! Check the score and determine your winner based off the grid's intersecting winning numbers.

Example: Team Sharp Cheddar scored 10 and Team White Cheddar scored 15, the winner for that quarter would have the intersecting square of 0 and 5.
