

Introducing Hubbell High Amp Straight Blade Connectors

May 2026

New 50A and 60A Solutions for Demanding Power Applications

Hubbell Wiring Device-Kellems expands its industry-leading line of high amp straight blade devices with the introduction of new 50A and 60A connectors, engineered to deliver secure, dependable, and high-performance power across demanding RV, generator, commercial kitchen, and industrial environments.

What Are High-Amp Straight Blade Devices?

High-amp straight blade devices are industrial-grade plugs, connectors, and receptacles designed to carry high current using straight flat blades, offering a simple, reliable alternative to locking or pin-and-sleeve configurations.

They are ideal for applications where dependable power delivery, broad compatibility, and quick connect/disconnect are essential. Typical configurations support 30A, 50A, and up to 60A loads depending on voltage and application requirements.

New Product Launch: 50A & 60A Straight Blade Connectors

Hubbell's new high-amp connectors are built to support rugged, high-current applications with durability and long-term performance. Designed for secure connections and consistent power delivery, they are also more robust than offshore alternatives.

Available models include:

- **HBL9460NC** – 60A, 125/250V, NEMA 14 60R
- **HBL9450NC** – 50A, 125/250V, NEMA 14 50R

Key benefits include:

- **Reliable performance under load** – supports long-duration, high-current use
- **Rugged construction** – industrial-grade materials for demanding environments
- **Field-installable design** – enables flexible installation, power extension, and servicing
- **Standards compliance** – tested to UL498 requirements for safety and performance

These connectors are ideal for applications including RV hookups, generators, live events, commercial kitchens, welders, and industrial equipment.

Expanded 30A TT 30 Offering

Hubbell has also upgraded and improved its NEMA TT-30 straight blade devices, delivering improved quality, consistency, and performance for 30A applications.

Available models include:

- **HBLTT30RA** – 30A, 125V, 2 Pole, 3 Wire Grounding Receptacle
- **HBLTT30PA** – 30A, 125V, 2 Pole, 3 Wire Grounding Plug

HIGH AMP STRAIGHT BLADE CONNECTORS

These devices are designed for RV power, portable generators, and temporary power setups—supporting reliable performance in both stationary and mobile environments.

A Complete High-Amp Straight Blade Solution

Together, Hubbell's 30A, 50A, and new 60A offerings provide a complete straight blade solution across key amperage ranges, making it easier to specify, install, and support high-amp power connections across applications.
