CAUTION / AVIS

This lightning flash with arrowhead symbol within an equilateral triangle is intended to alert the user to the presence of non-insulated “dangerous voltage” within the product’s enclosure that may be of sufficient magnitude to constitute a risk of electric shock.

Le symbole représentant un éclair avec une flèche dans un triangle équilatéral a pour but d’avertir l'utilisateur de la présence de « tension dangereuse » non-isolée à l'intérieur du produit qui peut être suffisamment importante pour constituer un risque d'électrocution.

Warning: To reduce the risk of electric shock, do not remove cover (or back) as there are no user-serviceable parts inside. Refer servicing to qualified personnel.

Avertissement : Afin de réduire le risque d'électrocution, ne pas retirer la protection (ou le panneau arrière), car aucune pièce intérieure ne peut être réparée par l'utilisateur. Confier toute réparation à un professionnel qualifié.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance instructions in the literature accompanying the appliance.

Le point d'exclamation contenu dans un triangle équilatéral, avertit l'utilisateur que la documentation fournie avec l'appareil contient des instructions d'utilisation et d'entretien importantes.

FCC STATEMENT

WARNING: Any changes or modifications to this device not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This equipment complies with the FCC radiation exposure limits set forth for an uncontrolled environment. This device must not be co-located or operated in conjunction with any other antenna or transmitter.

To comply with FCC's RF radiation exposure limits for general population/uncontrolled exposure, this device must be installed to provide a separation distance of at least 20 cm from all persons.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined

by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

IC STATEMENT

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Cet appareil est conforme à la norme RSS sans licence d'Industrie Canada. Son fonctionnement est soumis aux deux conditions suivantes : (1) cet appareil ne doit pas provoquer d'interférence et (2) cet appareil doit supporter les interférences, y compris les interférences susceptibles de provoquer un fonctionnement inattendu.

To comply with Industry Canada's RF radiation exposure limits for general population/uncontrolled exposure, this device must be installed with a minimum distance of 20 cm from all persons.

Pour être conforme aux limites d'exposition aux radiations RF d'Industrie Canada pour la population générale/l'exposition non maîtrisée, cet appareil doit être installé à une distance minimale de 20 cm des personnes.

This Class B digital device complies with Canadian ICES-003.

Cet appareil numérique de classe B est conforme à la norme ICES-003 au Canada.

IMPORTANT SAFETY INSTRUCTIONS

1. Read these instructions.
2. Keep these instructions.
3. Heed all warnings.
4. Follow all instructions.
5. Do not use this apparatus near water.
6. Clean only with a dry cloth.
7. Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
8. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
10. Only use attachments/accessories specified by the manufacturer.

11. Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart or rack is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.

12. Unplug this apparatus during lightning storms or when unused for long periods of time.
13. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

Long-term exposure to loud audio may cause hearing loss. To prevent possible hearing damage, do not listen at high volume levels for long periods.

Electrical products, cables, batteries, packaging, and the manual, should not be mixed with general household waste.

For proper recycling, please take these products to a designated collection point where they will be accepted free of charge or return them to your local retailer. Correct product disposal saves resources and prevents negative effects on human health and the environment.

To prevent possible harm to the environment or human health from uncontrolled waste disposal, dispose of defective rechargeable batteries only at designated collection points, or return them to your specialist dealer.
