

Review/Refine Goals/Guiding Principles (Today's Process)

- Confirm purpose of Guiding Principles
- Refine Macro View of Guiding Principles
- Discuss/refine Micro View of Guiding Principles (benefits/groups)
- Come to consensus on potential refinement to GPs
- Address Next Steps
 - Prior to May meeting, refine and determine whether to include specific metrics for GPs
 - May meeting – Discuss refined GPs and finalize

Draft Goals/Guiding Principles

Guiding Principles (Macro View) – Evaluating Recommendations for their effect on the Entire Community

- *Overall, reduce the airplane noise effect on the population.*

Guiding Principles (Micro View) – Evaluating Recommendations for their effect on People, Locations, Entities

1. Desired Effect – For higher affected areas:

- a) Increase the time between flights.
- b) Reduce the number of flights per day.
- c) Reduce the number of night flights.
- d) Reduce the plane noise level.

2. Affected Groups Outside the Contour – Reduce the:

- a) # of **people** who experience a high frequency of loud plane noise.
- b) # of **locations/neighborhoods** that experience a high frequency of loud plane noise.
- c) # of **schools** that experience a high frequency of loud plane noise.
