Dear Mr. Cagle,

I am acknowledging receipt of the recommendations provided by the CLT Airport Community Roundtable (ACR) through the Charlotte Douglas International Airport on July 2, 2020. I want to express appreciation to you and other airport leaders, along with the ACR membership, for the collective efforts made to formulate and reach agreement on this set of recommendations.

The FAA is already working to arrange a strategy meeting to begin our review, and I understand both the airport and ACR are expecting feedback from the FAA prior to implementation. As you know, the airspace around Charlotte is complex, and these arrivals and departure procedures are connected to other adjacent facility airspace. It will take us some time to review the details of the recommendations so we can assess impacts and interdependencies, and project a timeline associated with our determinations.

Sincerely,

A handwritten signature in black ink that reads "Michael C. O'Hara".
